SHATTERED NERVES.

Fearful Result of Neglecting Weak Nerves.

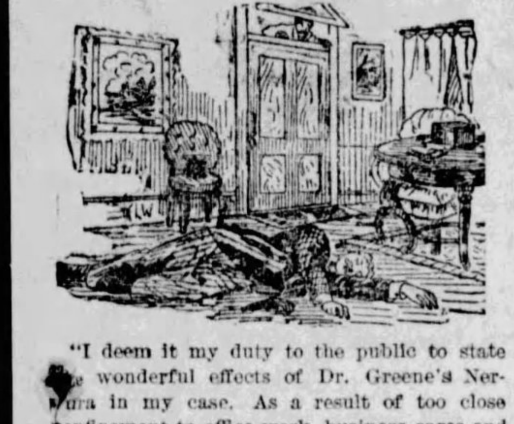
Great Prevalence of Brain and Nerve Exhaustion at this Season of the Year.—A Sure Preventive Against the Terrible Nerve Weakness.—Save Your Brain and Nerves in Time.

"Shot himself dead." Why? Brain exhaustion and shattered nerves from overwork, fret, worry. Men and women are straining their brains, exhausting their nervous and physical strength, until sleepless nights, failing strength, nervous exhaustion, paralysis, insanity or death follows.

They are warned of their doom by strange sensations, dull, dizzy, bad-feeling head, malaria, irritability, nervousness, sleepless nights, tired waking, weak, trembling, cold limbs, languor, sense of nervous and physical exhaustion, kidney and liver diseases, or constipation. THESE ARE DANGER SIGNALS. At this season all these symptoms are made much worse by Spring Debility.

The Grip also, has made more suicides than any other known disease, for it always leaves those who have it with weak nerves, exhausted energies, blue and depressed in mind, debilitated in body.

What is to be done? Use Dr. Greene's Nervura, and this great nerve, brain and blood invigorator will give you a clear brain, strong nerves and sound health. Purely vegetable and harmless. Sold by druggists, $1.



"I deem it my duty to the public to state the wonderful effects of Dr. Greene's Nervura in my case. As a result of too close confinement to office work, business cares and anxieties, I broke down with nervous prostration. I began the use of Dr. Greene's Nervura. My improvement has been most gratifying, and language cannot describe the change in my feelings and prospects. WHERE ALL WAS GLOOM AND DESPONDENCY, THERE IS NOW LIGHT AND HOPE. I gained 13 pounds, and am still gaining. Not alone myself, but I know many others who can testify to the merits of Dr. Greene's Nervura. CHARLES H. HODGDON,
35 Dana St., Somerville, Mass."

Dr. Greene, the successful specialist, in curing all forms of nervous and chronic diseases, 35 W. 14th street, New York, can be consulted free, personally or by letter. Call or write to him about your case or send for symptom blank to fill out, and a letter fully explaining your disease, giving advice, etc., will be returned free.

WEATHER INDICATIONS.

U. S. Department of Agriculture,
Weather Bureau,
Toledo, O., April 14.

The storm which was central over Kansas has moved eastward, increasing in energy, and is central this morning between Cincinnati and Indianapolis.

It has caused rains and snow and high winds over the lower lakes—snow falling to the north and west of the center and rain to the south and east.

It will move over Lake Erie and will be followed by colder and clearing weather by Friday night.

High east and southeast winds will prevail, veering to westerly.

Chicago reported a gale of 46 miles per hour and snowing this morning; other stations along the lakes also report high winds.

The temperature has fallen slightly over the north and west, elsewhere it has remained nearly stationary.

The Mississippi river continues to rise south of Cairo.

Forecast for Toledo and vicinity—On Thursday, rain and snow, stationary temperature; southeast winds veering to westerly. On Friday, clearing, with light flurries of snow; slightly cooler. On Saturday, fair weather.

E. A. HANNER, Observer.

Ohio—Rain; east and southeast gales, shifting to southwest.

For Indiana and Illinois—Clearing; cooler; winds becoming northwesterly, with frosts and freezing weather to-night.

For lower Michigan—Rain or snow; followed by fair; colder; northeasterly winds.

For upper Michigan—Showers; north gales.

For Wisconsin—Showers; slightly cooler; northwest gales.

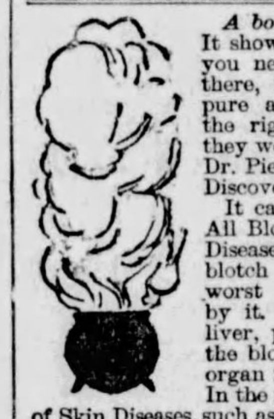
DESTROYED BY FIRE.

Halifax, N. S., April 14.—Fire at Yarmouth last night destroyed L. J. Kelly's shoe store, W. B. Hemer's confectioner's shop, T. B. Knight's book store and George F. Parker's photograph studio.



A boil hurts, but it helps. It shows you plainly what you need. It wouldn't be there, if your blood were pure and your system in the right condition. And they would be, if you'd take Dr. Pierce's Golden Medical Discovery.

It carries health with it. All Blood, Skin, and Scalp Diseases, from a common blotch or eruption to the worst Scrofula, are cured by it. It invigorates the liver, purifies and enriches the blood, and rouses every organ into healthful action. In the most stubborn forms of Skin Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, Carbuncles, and kindred ailments, and with Scrofula in every shape, and all blood-taints, there's nothing that can equal it as a perfect and *permanent* remedy.

That's the reason it's the only medicine of its kind that can be *guaranteed*. If it fails to benefit or cure, in any case, you have your money back. And that makes it the *cheapest* blood-purifier sold, for you pay only for the *good* you get.

Raging Gale Reported on Lake Michigan.

Boats Afraid to Venture Out.

Snow, Rain, Hail and Sleet in the West.

Telegraphic Communication Shut Off.

Wind Blowing Sixty Miles an Hour and Raising a General Disturbance in the Lower Lake Region.

Chicago, April 14.—A furious storm of wind, rain, sleet and hail, finally turning into snow, began yesterday evening and continued all night.

The wind was from the northeast and as it swept over the lake it raised a tremendous sea.

This morning a 60-mile gale was blowing and the waves, as they struck the lines of piling along the lake shore, shot high into the air, and the spray was carried hundreds of feet inland.

Local trains on the Illinois Central road were delayed and other lines suffered some interruption.

The iron steamer Ivanhoe, which was made fast at the breakwater, pounded heavily and no tug could be found to venture out to her assistance. There was no one on board, fortunately, and she will probably be towed inside sometime to-day. The grain and lumber fleet did not venture out, nor were there any departures of steam craft.

Heavy snow and rain storms are reported throughout Minnesota, the Dakotas, Iowa, and the northwest generally, and this morning there is a gale blowing along the lakes accompanied in most cases by rain or snow.

Telegraphic communication with points west, southwest and northwest of this city is almost entirely cut off and at noon there was no indication of any abatement of the storm in those districts.

LOCKED UP A CRANK.

Dynamiter Arrested in Indianapolis.

He Had Explosives in His Room and the Police Think His Designs Were Evil.

Indianapolis, Ind., April 14.—Several days ago a peculiar looking German, a stranger in the city, was observed loitering in the wholesale district and around the public buildings and the detectives placed him under surveillance.

He was traced to his room, where it was discovered that he frequently received calls from mysterious persons. Last night he was arrested. In his room was found a quantity of dynamite and fuses and several caps similar to those used by Lingg, the anarchist, when he committed suicide.

The stranger registered as Joseph A. Schadler. He first claimed to be from Chicago and afterwards he said he was in business in East St. Louis until he was robbed of $28,000 by employes. The authorities here ordered his detention for further examination.

SWEET SINGERS FALL OUT

Why Patti Disowns Her Nephew.

Alfredo Barili Was Altogether Too Free in Making Love—Jangle in a Musical Family.

New York, April 14.—The suit of Dr. M. F. Horine, of Chicago, for $50,000, against Alfredo Barili, of Kansas City, for alienating the affections of his wife, has created a jangle in the most musical family on earth—a family of which Adelina Patti-Nicolini is the sweetest toned.

Adelina Patti's mother was, before her second marriage, Mme Barili. She had two sons, Ettore an Nicolo Barili.

Ettore Barili, Adelina Patti's half brother, was her first music teacher. Ettore Barili was long a music teacher in Philadelphia with Parelli, whose gravestone, an unhewn rock, with a lyre and a laurel wreath graven on it, is a monument in one of the cemeteries there. Alfredo Barili is the son of Ettore. He is now a well-built man, 38 years old—a blond (singularly enough for one through whose veins runs Italian blood), with a prominent nose, like many distinguished men. Alfredo wears his hair in what in now miscalled pompadour fashion, and has a full, square-cut beard. His friends here say that as a music teacher he is incomaparble—heart and soul in his art.

Ettore Barili sent Alfredo to Cologne to be educated. While leading the rollicking German student life in the city washed but not disinfected by the river Rhine, Alfredo fell in love with a young girl. His suit was repulsed by her father, who was in the diplomatic service of his country. Months after, by some queer chance, when Alfredo had returned to his father's house in Philadelphia, his sweetheart's father was sent there as German consul. The lovers met again, and were married privately, the father still strenuously objecting to the match. That was 14 years ago.

Mrs. Alfredo Barili was not a handsome woman. She was described yesterday as "amiable," which is the least any one can say of any woman. Three children came to her and her husband—two boys and one girld. About nine years ago the family moved from Philadelphia to Atlanta, Ga., and Alferdo made there, as before, a decent livelihood at his profession. He seemed entirely content and happy. None of his relatives here ever heard him utter a word against his wife. About a year ago Alfredo, leaving his family, in Atlanta, went to Kansas City, where he started a conservatory of music and prospered.

Alfredo's uncle, Nicalo, a teacher of the piano, too, who has the most tremendous mustache and imperial in New York, lives at No. 222 East Twenty-fifth street. Alfredo visited him there last June on his way to Wales, invited thither by Mme. Patti-Nicolini. Nicalo Barili and his wife said yesterday that while Alfredo was certainly a favorite of his golden-throated aunt, no one knew whether she had intended to leave him half her fortune or what part of it. They hoped Mme. Patti-Nicolini would live a thousand years, she was so generous. The news of Alfredo's love affair was a great shock to his uncle, Nicalo. All he knew about it was the Mme. Patti-Nicolini was exceedingly incensed over it. They awaited with impatience letters from the amiable Mrs. Alfredo Barili.

AN INTERNATIONAL MEETING

To Further the Use of the White Metal.

Believed that England Has Sent a Proposition to the Government at Washington.

New York, April 14.—The Press this morning says positive information that a definite proposition for an international conference on silver has lately come from the English government to the United States government is in possession of a few well-informed persons in New York city and Washington, and there is reason to believe that this fact will soon be made public.

The proposition came through the regular diplomatic channels to Secretary Foster from Mr. George I. Goschen, chancellor of the exchequer, on the eve of the secretary's departure for Europe.

The proposition contemplates the holding of an international conference for the purpose of considering means for the extension of the use of silver as a money metal.

There is no reference to bi-metalism, free coinage of silver or bullion purchases, on which silver certificates are issued to serve as currency, but its broad terms imply that the proposition covers these means, as well as others, as subject to investigation by the conference.

In another particular the proposition is unsatisfactory to this country. No provision has yet been suggested that will insure the ratification by the respective governments of any agreement which a conference might reach. There is likely to be considerable correspondence on these points before any agreement for a conference is made.

HE DEFENDED HIMSELF.

Parkhurst's Crusade Among Gay New Yorkers.

His Conscience Seems to Trouble Him Judging from His Numerous Explanations.

New York, April 14.—Rev. Dr. Parkhurst, who gained such wide notoriety by his crusade against the city's dives, issued an address to the citizens of New York this morning in which he tells why he adopted the methods he did to procure evidence, which have been the subject of much adverse criticism.

His object, he says, has been solely to secure in the public mind an indictment against the police department.

He does not try to defend his method, but says it was the only way in which he could cut to the quick of this whole corrupt business. He refers to the police department as "an organized and salaried criminality" which threatens the community, and says he is determined in his course and will continue it.

WILL NOT BE SNUBBED

A Clash Among the National Republicans.

Minneapolis Proposes to Have Something to Say About Packing the Convention.

Minneapolis, Minn., April 14.—The subexecutive committee of the republican national committee is in session here today. Those present are A. L. Conger, of Ohio, Powell Clayton, of Arkansas, H. C. Payne, of Wisconsin, H. S. Hyde, of Massachusetts, and R. G. Evans, of Minneapolis.

Chairman Clarkson will not be present as he is still nursing his inflammatory rheumatism at Hot Springs. The other absentees are Campbell, of Illinois, who may yet come; Scott, of West Virginia, De Young, of California, and Fessenden, of Connecticut.

There were also present Sergeant-at-Arms Meek and Architect Adler, of Chicago.

The meetings of the committee have been executive, but it is known that the committeemen are reviewing the work of the local convention committees. Reports of the work already done and an outline of plans to be carried out have been presented by Chairman George Brackett, of the local committee.

The only chance for any friction is over the distribution of tickets to the hall. So far the national committee has kept the control of the tickets in its own hands. The local committee proposes to have something to say as to how a portion at least of the visitors' tickets are distributed. Local contributors to the convention fund expect that they will be given the preference in the distribution. This afternoon the committeemen visited the great hall at the exposition building, which is now in a very forward state. The carpenters have finished their work and the seating, lighting and decoration plans are being put into execution.

The acoustic properties of the hall were given a thorough test with exceedingly satisfactory results. The visitors pronounced the hall by far the best for convention purposes ever put at the party's disposal.

WANT REGISTRATION.

Lima, O., April 14.—A bill was prepared here and will be sent to Columbus providing for registration for this city in future elections.

THE WAR OF WAGES

Continues With Bitterness in Chicago.

Knights of Labor Seem to be on Top.

The John W. Moore Still Aground in Chicago—Local and General Marine News—Vessel Passages.

Chicago, April 14.—(Special Marine Service)—The first collision between the Knights of Labor Lake Faring Men's assembly and the Seamen's union occurred yesterday morning on board the schooner John Wesley, which was all ready to leave for Escanaba to load iron ore.

Capt. Barnes had shipped a crew of knights at $1.75 per day.

A committee of 20 of Elderkin's men suddenly appeared and ordered the crew off. They refused to go and a general rush ensued, resulting in the knights being driven off, one of them being badly hurt in the head.

An attempt will be made to put knights on board for keeps, and it is stated that police protection will be asked for.

Capt. Barnes refused to ship a crew of Elderkin's men.

The schooners Geo. Sturges, Minnie Slauson, E. B. Maxwell and Mary D. Ayer, grain loaded, got away during the day, but what rate of wages they paid their seamen could not be learned.

At the meeting of the Firemen's union Tuesday night war was declared on the steamship E. C. Pope and all Cleveland-owned steam craft in the port. It was resolved that the Pope should be held in port until she hired a full complement of firemen and paid them $45 per month.

Capt. John Shaw, the manager of the Edd-Shaw fleet, to which the Pope belongs, turned a new trick. He secured Knights of Labor for firemen and became a knight himself.

It was with great satisfaction that he saw the Pope go down the river, having been victorious over all the union men.

Capt. Shaw has fought the union for a long time and it was because Mayor Cregier gave police protection to his schooner, the John Shaw, that the Seamens' Union made so bitter war on the ex-mayor two years ago.

Bad Talk from Corrigan.

John Corrigan, of Cleveland, owner of the schooner J. I. Case, pronounces the attack upon her crew Sunday a fool outrage. He mentioned the fact that Capt. Robinson shot one of a "committee" at Ashtabula, and expressed surprise and sorrow that there was not shooting at Sunday's assault.

Speaking of the war declared by the Chicago Firemen's Union against Cleveland steamers Capt. Corrigan said that he and other members of the Cleveland Vessel Owners association did not recognize this union at all.

They ignored it just as they ignored the two seamen's unions. The Chicago Firemen's Union had demanded $45 per month for the men on the Pope.

The Aurora, he said, had larger boilers than on the Pope and the same number of furnaces, yet she carried only three firemen and paid them $37.50 per month.

They were, however, given steady employment and they fared a great deal better than the Chicago firemen did, even if their demands were acceded to.

The 'Longshoremen.

Police are stationed on all the docks of the Buffalo propeller lines. Non-union men are being worked at 20 cents an hour, but there is no interference from the striking 'Longshoremen.

It is claimed that many union men are among the gangs working at 20 cents an hour. The union claimed that the Ogdensburg line would pay 25 cents an hour as soon as it has any boats here to unload.

Damaged in Collision.

A call reached the tug offices before daylight this morning for a diver and steam pumps. The big tow barge B. W. Parker, grain laden, and towing, had collided with the steamer Harry E. Packer, of the Lehigh Valley line, and torn away the stanchions, rail, etc., and cut into the hull on the starboard side, extending down to the water line.

The crew worked at the pumps during the night and most of the day yesterday. A diver was on the scene in the morning and after a tedious job succeeded in getting a canvas jacket over the break.

Such efforts were made to keep the whole accident a secret that the facts did not come out until last night. The Packer had a cargo of wheat, but nothing is known as to its damage. It is fully insured.

The Unlucky Moore.

The steel steamship John W. Moore, with 90,000 bushels of corn on board, has been aground in the North Branch above Division street for three weeks past—almost long enough for the corn to grow. The east wind yesterday gave as fair a stage of water in the harbor as could be expected, and yet all the tugs to be had could not budge the big boat.

The Ice Getting Soft.

Cheboygan, Mich., April 14.—(Special Marine Service)—It is reported by steamers arriving here to-day from Detour that the ice in the Soo river is so soft that a boat could easily force its way through. Fishermen are placing their net stakes in Mud lake.

Gladstone, Mich., April 14.—(Special Marine Service)—The ice has left Bay de Noque and navigation opened to-day. The first arrival was the steamer Omaha, which came to load wheat.

Marine Notes.

It is announced in Buffalo that the Reading, Erie, Lackawanna and Pennsylvania coal companies will not ship any more coal during April except a few cargoes on their own boats. This means that boats now carrying grain to Buffalo will be compelled to come back without cargoes in case they continue in the grain trade for the rest of this month.

F. A. Howe, agent of the Grand Trunk, announced yesterday that his road would be in the New England grain trade all this season. Last year it dropped out in mid-summer, to the great loss of many Chicago schooners carrying grain to Grand Trunk terminals on Georgian bay. Some years the Grand Trunk handles as high as 6,000,000 bushels by this route.

Battled With the Storm.

Chicago, April 14.—(Special Marine Service)—The steamer Majestic, which came in this morning was the first arrival from the lower lakes. Masters of boats arriving to-day report a terrible night on Lake Michigan. There was blinding snow and sleet in addition to a northeast gale, which sometimes reached a velocity of 60 miles per hour. Many of the grain fleet which left yesterday had to return to shelter under the breakwater, but their names are not yet learned. Several deck loads were lost.

With a Non-Union Crew.

Buffalo, April 14.—(Special Marine Service)—After non-union crews had been twice taken off the schooner David Vance by the Seamen's union, a third crew was put on board this morning under a strong police guard. The schooner was then towed out to the breakwater, out of the reach of the union committees.

Coal Freights.

Buffalo, April 14.—(Special Marine Service)—There is no improvement in coal freights to-day. Charters—Coal, to Chicago, Susan E. Peck, 40c; Lackawanna, on owner's account, Hecla, soft coal from Cleveland, 55c.

Arrived—Pope, Brittanic, Livingstone, Germanic, City of Cleveland, Niko, Churchill.

Passed Port Huron.

Port Huron, April 14.—(Special Marine Service)—Up, p. m., Marigold, 5:20; Barnum, 7; Wawatam, 9:20.

Down, a. m., Rube Richards and consort; Fitzgerald, 6:30; Maritana, 4:30; Kalkaska, 6:30.

Arrived—Robert Mills. Wind northeast; fresh.

Ice in Green Bay.

Sturgeon Bay, April 14.—(Special Marine Service)—The tug L. B. Godfrey was released from a big floe on Green Bay after the crew had experienced great suffering. The Godfrey left Menominee for here last Saturday. That night she was caught in the ice about ten miles from shore. A northern gale piled up the ice ten feet high around her.

The tug L. D. Smith attempted a rescue, but could not get within a mile of the Godfrey. The crew, who had had nothing to eat since leaving Menominee, were compelled to come ashore over the ice for food. A gale broke up the ice floe and set the tug adrift. She arrived here at noon.

The tug Cyclone and steamer Mary Mills, after lying here a week, finally got through the ice in Green bay.

At the Crossing.

Lime Kiln Crossing, April 14.—(Special Marine Service)—Down, p. m.: Josephine and consort 8:40; a. m., City of Detroit 12:35, Saginaw 3:30, Byron Trerice and consort 5:15, Lily 6:35, Elfinmere 8:30, J. H. Runnells with Hattie Wells and Little Wissahickon 10:15.

Up—p. m., Sallow and consort 1:04; a. m., Matawan 10:10, Fayette Brown 5, City of Cleveland 5:10, Sweepstakes with Conrad Reid 6:20, Langell 7:40, Harlem 7:5., Telegram 9:15.

Found the Bottom.

Amhurstburg, Ont., April 14.—(Special Marine Service)—The steamer Emily P. Weed, bound for Buffalo from Chicago with grain, stranded on the middle ground at Bar Point at 8:30 last night. The Saginaw went to her release, but she was floated off without damage at daybreak this morning by the water raising.

Loaded to Deep-Rates.

Chicago, April 14.—(Special Marine Service.)—Captain Elphicke, agent of Wted, said this morning that she drawing fifteen feet four, more than any other of the grain fleet. He had feared that she would touch botom going down, but was pleased that damage was not serious.

Lake and rail rates were demoralized all around this morning. Some lines asked 17 1-2 cents on flour to New York, while others were taking everything at 15. The same difference existed in grain rates. One line had a tariff out at 8 wheat to New York. While other lines were taking business at 7 1-2 Agents were freely offering boats now on the way from Buffalo at 2 for wheat and 1 3-4 for corn, but shippers did not care for many.

Through the Straits.

Mackinac City, Mich., April 14.—(Special Marine Service)—Down, a. m., Western Reserve, 7; Parks Foster, 7:15; Brittanic, 11.

Up, a. m., E. M. Peck, 3; Grey's Reef, Simmons' Reef and White Shoals lightships, 4.

Wind east, fresh, clear.

Rioting in Racine.

Racine, April 14.—(Special Marine Service)—Riots on the dock between non-union 'longshoremen and lumber unloaders are in order here.

Paul Jones, one of the gang unloading lumber below the established rate, was terribly beaten yesterday. Two union men named Wister and Lug were arrested and fined.

The Josephine and Parker are in light after coal.

An interesting marine item will be found elsewhere in this issue.

The schooner St. Peter sailed in to-day light, after a cargo of grain.

The steamer Stafford came in light from Detroit, and is loading coal for Duluth.

The Irsaca came in light to-day after coal, and the America light, for grain.

The Panther, Massasoit, Iron Duke, Sage and others are lying outside at anchor.

Owing to the stubborn northeaster now blowing, few boats have been able to come in or leave since last night.

A NOTHER CRISIS IN ROME

The Cabinet, With the Exception of Rudini,

Has Tendered Its Resignation to Humbert.

Financial Affairs Have Lead Up to the State—Italy's Credit is in an Exceedingly Bad Condition.

Rome, April 14.—The ministerial crisis, which has been pending for several weeks, resulted in the resignation of the entire Italian ministry excepting the premier, Marquis Rudini.

The king has accepted their resignations and has charged the marquis to form a new ministry.

The cause of the difficulty is financial. All sorts of plans to rescue the treasury from its difficulties have been suggested. It is stated, on apparently good authority, that the treasury has sold two hundred millions of the rents which are or were held as security for the government paper money, replacing them by 4 per cent. railway obligations.

The residues from prior appropriations which it was the rule to keep out of the income account have long been passed over to diminish the dificit.

Grave fear has existed for some time of the hoarding of gold, in consequence of the financial depression, and the prospects have grown darker and darker.

It has been reported that a new loan of about one hundred millions was about to be made in Germany, but nothing is said as to the character of the securities, whether they are the new treasury seven year bonds, or ordinary bonds held in reserve. The negotiation of the bonds abroad would involve heavy charges. It has become certain that the country would not take up the two hundred millions of the new treasury bonds, and altogether the condition of affairs is most unpromising.

The crisis seems to have been reached sooner than was expected. Rumors have been current for some time that M. Rudini did not consider Signor Colombo, the best man obtainable for the ministry of finance, and it appears that the other ministers stood by Colombo. Either the ministry or Rudini had to retire and the king has decided in favor of the ministers.

STATE TROOPS MUTINY

Serious State of Affairs in Tennessee.

Eleven Soldiers Arrested Charged With a Conspiracy to Hang Non-Commissioned Officers.

Knoxville Tenn., April 14.—Reports received indicate that mutiny is threatened among the state troops now on guard at the stockade of the Knoxville Coal and Iron company at Coal creek, with a plot to hang two non-commissioned officers who had made themselves obnoxious to a number of privates of the company.

Eleven of the conspirators are in irons awaiting trial by a court-martial.

WILL QUIT ON MONDAY

The Ohio Legislature Has Done Harm Enough,

And the Members Will Retire to Seclusion.

News of General Interest from the Capital of the Great Buckeye State.

Columbus, April 14.—(Special)—In the senate some time ago, Mr. Green, of Cuyahoga, introduced a bill raising the grades of cities. It passed the house yesterday and is now a law. Heretofore the grades of cities was changed according to the population at the last census without action by council, but Green's bill provides that it shall require a two-thirds vote before the grade of a city can be changed.

The Pool Bill.

Yesterday afternoon the house reconsidered Mr. Beaird's bill authorizing the selling of pools on the race tracks of regular trotting associations, where the track is one mile in length.

It was amended slightly, placed upon its passage and again lost, receiving five more votes than when first placed upon its passage.

It will be again reconsidered at the first opportunity.

More Taxes.

Mr. Taylor, of Champaign, introduced a bill yesterday afternoon making a levy of 3-10 of a mill for sinking purposes. It was read the second time under suspension of the rules and referred to the finance committee. This is a sample of republican extravagance and the poor farmers and the taxpayers of the state will have to pay their hard earnings into the state treasury to pay off the salary of the many offices created this winter.

Anticipating Funds.

The senate yesterday passed Lampson's bill authorizing the State University to issue certificates of indebtedness to complete buildings in anticipation of the levy under the Hysell law.

The New Secretary.

Under a suspension of the rules the senate yesterday afternoon passed a bill authorizing ex-Secretary of State Ryan to pay over to his successor, Col. Poorman, the sum of $175,000, in his hands, collected under the Massie law and held by injunction from the railroads.

Flick's Convict Labor Bill.

The house yesterday afternoon passed a bill by Representative Flickinger to regulate the employment of the inmates of private institutions of the state. The bill as it passed provides that the total number of prisoners and inmates employed at one time in the penitentiaries, workhouses, and reformatories of this state in the manufacture of any one kind of goods which are manufactured in this state outside of said penitentiaries, workhouses and reformatories shall not exceed five per centum of the number of all persons in this state, outside of said penitentiaries workhouses and reformatories, employed in manufacturing the same kind of goods, as shown by the last federal census or state enumeration, except in industries in which not more than fifty free laborers are employed.

Toledo Bills.

Griffin's bill authorizing the city of Toledo to issue $75,000 in bonds for bridge purposes passed the senate last evening.

The senate passed Heller's bill providing a salary of $700 per year for the court bailiffs of Lucas county. It is now a law.

To Adjourn.

Monday has beed fixed as the day of adjournment.

Judicial Bill.

Mr. Griffin's judicial bill was killed yesterday.

Applications for Pardon.

Applications for pardon of the following northern Ohio prisoners were made this afternoon: Frank Limpert, Williams county, two and one-half years, burglary and larceny. Isaac H. Wagner, Summit county, grand larceny, one year. Fred Roscoe, Ottawa county, perjury, three years. William Frankuer, Hancock county, manslaughter, out on parole. He wants to get out so he can sue a man who defrauded him out of $700 during imprisonment.

Ballot Laws.

The house this morning passed a substitute for Mr. Fisher's Australian ballot law and it was opposed by Mr. Winn, of Defiance, who declared the Nichols bill was a bundle of errors and it was better to pass a good Australian ballot law first and then provide for elections.

The substitute as passed provided that secretary of state shall be chief inspector with four deputies in each county, not more than two of whom shall be of the same political party. The deputies are to be appointed by the state supervisor. They will have charge of all elections in the county and are appointed on recommendation of the respective political committees.

They have power to name the judges and clerks of elections, and they are governed by the features of Australian ballot law.

The vote is canvassed by them, after which the abstract is sent to the secretray of state, thus taking the place of the old county board elections.

Mr. Nichols' bill, after opposition, was read the third time and made special order for to-morrow at 10 o'clock.

To this bill there is considerable opposition, as it puts in force the old method of election laws, so that township trustees and councilmen are to be judges.

Poorman's Commission.

Gov. McKinley to-day issued a commission to Col. C. P. Poorman as secretary of state, vice D. J. Ryan, resigned. He takes office next Saturday.

Bills Passed the Senate.

Mr. Strehli—Providing that recitals in deeds shall be taken as prima facie evidence of title cases where records have been destroyed by fire or riot.

Mr. Sterrett—Giving the state food and dairy commissioner full power to enforce the laws governing his department.

Mr. Boesel—Authorizing the state board of public works to pay damages caused by the overflow of the Big Bear river in Mercer county.

Mr. Geyer—Authorizing Cecil, Paulding county, to issue bonds for $2,500, to build a fire engine house.

Mr. Baird—Providing that steps on passenger coaches shall not be more than twelve inches above the ground. Any railroad failing to comply with this law shall be fined not less than $50 nor more than $500 for each violation, and if any person is damaged the management of the road will be deemed guilty of a misdemeanor as well as liable to damages under the existing statutes.

Mr. Kelly—Appropriating $3,046 to pay claims of fishermen for nets seized and confiscated by the Poorman act taxing nets which law was declared unconstitutional.

Mr. McClure—Establishing the boundary lines of Miller City special school district in Putnam county.

Mr. McClure—Authorizing Miller City special district to issue $5,000 in certificates of indebtedness for general purposes.

Mr. Stewart—Authorizing Chicago Junction, Huron county, to issue $25,000 in bonds for electric lights, and general improvements.

Mr. McClure—Creating a special school district in Ottawa, special school district, Putnam county, to issue certificates of indebtedness for $5,000 for general purposes.

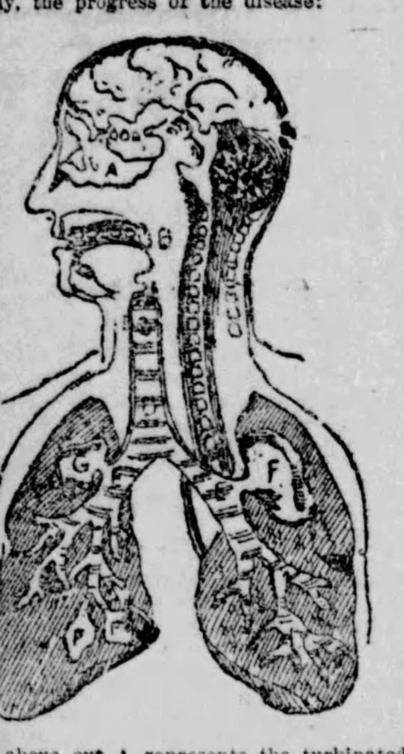
LEADS TO CONSUMPTION.

Nasal Catarrh, the Insidious and Treacherous Disease That Steals Slowly Into the System Until Life is in Danger.

A large percentage of the cases of bronchitis and consumption are caused by catarrh.

A cold in the head causes inflammation of the mucous membrane. Repeated attacks lead to chronic nasal catarrh. Sore throat follows. Then, the inflammation extending along the membrane through the throat to the bronchial tubes, bronchitis ensues. When the mucus lining of the air cells of the lungs becomes inflamed it is called pneumonia. When the lung itself is attacked by a wasting disease, characterized by the presence of the bacillus tuberculosi, it is phthisis pulmonalis, commonly called consumption.

The following illustration shows, anatomically, the progress of the disease:



(In above cut A represents the turbinated bones of the nose, the seat of nasal catarrh; B is the back of the throat, into which the poison mucus drops from the nose; C and D represent the trachea or windpipe leading to the lungs. The trachea divides into two branches, E E, called the bronchial tubes, one leading to each lung; F, F, F are cavities in the lungs showing the incipient ravages of consumption; G is another cavity, showing in the bottom of it a quantity of pus or matter which is thrown out in coughing. Consumption is often cured after these cavities have formed. This is proved by the fact that in post-mortem examinations where death has come from some other disease, scars or cicatrices are found on the lung surface, showing where the cavities have been and healed up. H H shows tuberoles which develop into cavities. The lesson of the picture is the great danger of consumption resulting from nasal and bronchial catarrh.)

The inflammation once started in the mucus membrane of the nose, see how naturally and easily it follows this same membrane wherever it leads, to throat, eustachian tubes, inner ears, causing roaring and partial or total deafness; to the trachea, bronchial tubes, lungs, causing bronchitis, pneumonia and consumption. The symptoms of bronchial catarrh are labored breathing on account of partial filling of the bronchial tubes; severe, straining cough, raising a tough, yellow mucus, often streaked with blood; severe pains in the chest cutting through to the back or shoulders; often some fever, with chilly, creeping sensations; hot and cold flashes; frequently wheezing or asthmatic symptoms. The cough almost tears the lungs, chest and bronchial tubes, causing intense suffering and frequently bringing slight stains of blood.

Danger of Consumption.

Only a slight abrasion! Perhaps only a tenderness or irritation between catarrh and consumption, between life and death! Think of it! Do the thousands of catarrhal subjects realize the awful abyss upon whose brink they stand?

Drs. Copeland and Bell are in no sense alarmists. Far be it from them to overstate the danger from any disease. But seeing long since the multiplied ills traceable directly and indirectly to catarrh, they believed that they could make themselves more useful to mankind by devoting their lives to the study and cure of catarrh and its long train of painful and fatal ills than in any other way.

The lesson of this picture and explanation is plain. To those suffering with any form of catarrh, whether of nose, throat or bronchial tubes, the suggestions of the lesson are imperative. Take this trouble in time. Do not wait for the catarrh to spread from nose to throat and thence to run riot through the whole system, undermining, weakening, poisoning, breaking down lungs, stomach, heart; impoverishing the blood and injecting into it its virulent impurities; making the system a congenial soil for the development of every disease and a more pregnant cause of consumption and many other diseases than all other influences combined.

A VETERAN SPECIALIST.

And for Years An Associate of Dr. Copeland's, Joins the Staff of the Copeland System in Toledo —Dr. E. O. Bell.

The many friends and patients of the Copeland Institute of this city will be interested to learn of the permanent location at this institute of one of the oldest and most skillful of Dr. Copeland's associates—Dr. E. O. Bell. For over three years in the larger cities, Dr. Bell has been associated with Dr. Copeland in the treatment of specialties, for which the Copeland system has won its well deserved fame and reputation. A skillful surgeon, a trained and experienced specialist, a physician of broad attainments, of courteous and sympathetic manner; the many patients of the Copeland Institute in this city can be congratulated on the location of Dr. Bell here.

He will be glad to meet at the offices of the system, old patients and new ones, and will be personally in attendance during the regular office hours. Dr. Bell is to make his home in Toledo.

The office of the Copeland Institute opens upon its second year in this city under Dr. Bell's management. The practice of this office is to-day larger than at any time during its location here. PERMANENCY is the test of skill. The fact that the practice is to-day larger than ever before and is constantly increasing, is the best evidence of merit and skill.

ADDITIONAL TESTIMONY.

Interesting Statements From Well-Known Citizens of Toledo

Mr. Rice's Case.

"I had been troubled with chronic catarrh for years," says Mr. Ancil G. Rice, of 219 Dix street. "and it was not neglected either. I doctored for years, but had been improperly treated. Drs. Copeland and Bell cured me of my trouble and I am now a well man. Need I say more?"

Nasal Polypi Described by a Patient.

"I had been troubled for a number of years," said Mr. George Hoffman, of 107 Empire street. "My head and nose was completely stopped up and I had to breathe through my mouth. This was due, in a measure, to the accumulation of mucus, but more especially to a number of polypi tumors which filled both nostrils. I had treated with a number of physicians but none of them discovered the tumors. Some time ago I called on Drs. Copeland and Bell, and placed myself under their treatment. They immediately removed seven polypi tumors and I was able to breathe through my nostrils, something I had not done in years. They then treated my catarrh, and I am happy to say I am feeling better to-day than I have for years. The removal of the tumors was without the slightest pain or loss of blood. I cannot recommend Drs. Copeland and Bell too highly."

A Prominent Real Estate Agent Tells of the Removal of Twenty Polypi Tumors.

Among the many prominent real estate agents in Toledo, none are more popular or more favorably known than Mr. J. J. Sumner, whose offices are at the corner of Superior and Madison streets, and who lives at 721 Prouty avenue. Mr. Sumner tells of his experience with Drs. Copeland and Bell, as follows:

"I had catarrh for a long time. My nose stopped up so that I could breathe only with great difficulty. In damp weather I could not breathe at all. I suffered from terrible, racking headaches. I often thought my head would burst with the throbbing and the pain. There was a constant flow of mucus from my nose, and my eyes became sore and watery. I did not sleep well, and I found that I was losing my sense of smell. I was most distressed, however, about my voice, which changed in tone until it sounded as if I pinched my nose with my fingers while talking.

"I was quite in despair, when after reading the testimonials of the patients of Drs. Copeland and Bell, I determined to make a trial of their treatment. I accordingly went to the Copeland Medical Institute, and it was only a short time until I began to breathe through my nose, until the headaches disappeared and until the polypus growths were removed. I can now hear the natural voice that has returned to me, much to my comfort and delight. I sleep well and I feel well. I have only one fear, and that is that the polypi may return, so I have concluded to continue the treatment for another month, at the end of which time I shall be forever rid, I hope, of the complaint that for four years made life a burden to me. I am glad to add my small tribute of praise to the splendid work of these physicians."

"I had catarrh for eight years and more," said Mr. Joseph Harbracht, "and suffered all the symptoms of that loathsome disease, such as head stopped up, pains in the head, profuse dropping of mucus in the throat, stomach affected, could not sleep at night, eyes weak, in fact I was unfit to do a day's work. Drs. Copeland and Bell restored me to good health."

The above speaker resides at 252 Anna street.

Their Credentials.

Dr. W. H. Copeland is a graduate of Bellevue Hospital Medical College, of the City of New York, was president of his class in that famous institution. His diploma bears the indorsement of the deans of prominent colleges in New York and Pennsylvania. Dr. E. O. Bell's credentials are no less unqualified. Both physicians after thorough hospital training and experience have devoted their time and attention to the special lines of practice noted below. Years of experience in their special lines, preceded by extensive hospital work, have fitted Drs. Copeland and Bell in a notable degree for the practice of their profession.

Drs. Copeland and Bell are permanently located in this city. Their lease and contracts are for a term of years.

CRIMES OF THE LONG AGO

The Copeland Story Recalls Them to Mind.

Another Man Supposed to Have Been Killed by Scott and Then Robbed.

St. Marys, O., April 14.—(Special)—An incident in the life of David Scott, the man who killed David Copeland in 1838, an account of which appeared in the Bee, was told by John Baker, a Shelby county farmer, last evening.

It was the year before the Copeland tragedy that Wm. Baker, of Greene county, came through this part of the state selling goods from a wagon. He stayed for some time at the house of his brother, John Baker, father of our informant.

David Scott came often to the Baker home, paying some attention to one of the sisters of the present John Baker. During these visits he became acquainted with the visitor from Greene county. Wm. Baker had another brother at Logansport, Ind., and started on a visit to him, sellings goods on the way. Scott started to overtake him a day or so after he had departed. If the earth had opened and swallowed him he could not have more effectually disappeared. From that day to this not the first syllable of information has been heard concerning Baker.

He may or may not be dead, but his children are now old people and his wife has long since passed away. It was supposed Scott murdered him and sold his property. A year or so after that Scott killed Copeland. Every effort was made to induce him to tell what he knew of the disappearance of William Baker, but he professed to know nothing of it.

Mr. Baker says the Scotts lived on the farm now owned by S. L. Wycoff, of Sidney. The Bakers lived on the farm now owned by Andrew Cargill. He says years ago there was a story to the effect that Scott had buried a pot of gold somewhere on the bank of Plum creek, near his home. The belief in the pot of gold story was so general that many have looked for it, so far, however, without success. The gold was supposed to represent a large part of Scott's ill-gotten gains.

WICKED LEITRIM'S DEATH

One of His Assassins Speaks from the Grave.

Demise of the Fourth Earl Recalls the Tragedy.

How the Cruel and Licentious Owner of a Title Brought About the State of Affairs.

New York, April 14.—There has died in Cambria county, Pa., an Irishman known as Hugh Boyle. He was about 52 and, although only a common laborer, much respected for his temperance, integrity and industry. About the same time the English journals announced the decease of Robert Birmingham Clements, fourth Earl of Leitrim, in the county of Donegal, Ireland. The connection between the peer and the laborer is due to the tragic fact that Boyle was the last survivor of the men who, in 1878, shot to death the third earl, by whose removal Richard Clements, then a poor lieutenant in the British navy, was raised to rank and wealth.

It is a fact that even the protestant gentry of the north of Ireland, who are first to denounce agrarian crime, regarded the killing of Lord Leitrim as the inevitable result of his evil life and character.

Boyle's right name was Stephens, and he belonged to a family of yeoman peculiar to the north—sturdy, law-abiding and industrious—devout Presbyterians, whose strongest motive in life is to maintain the tenant right of Ulster, which secures to them a settled tenure in their land and a freedom from the tyranny that oppresses their Catholic brethren in the south.

For 30 years the Earl of Leitrim had been at strife with his tenants—he had 90,000 acres of land stretching across three counties and giving him a rental of over £9,000 per annum, and he spent the best part of this in harrassing his poorer neighbors by suits at law, but the worst trait was shown in his brutal and lustful attempts to dishonor the wives and daughters of his tenants, and to accomplish this his influence as a peer and magistrate and his power as a landlord were used without fear or restraint—in fact there was not a worse scoundrel in Europe, and it was with truth that his taking off was described as "a wild act of natural justice."

Hugh Stephens had served in the British army for five years and with an excellent record as a soldier. On his return home he rented a small place and commenced life as a farmer. One day he met his landlord driving on the road and was ordered to ditch his little cart so as to make room for the peer's coach, and this command was enforced with a horsewhip, and this resented with a cudgel, the earl getting much the worst of it. This was the beginning of trouble for Stephens—he was evicted and ruined by litigation, and his sister, a beautiful and intelligent girl, was assaulted by a ruffainly retainer of his landlord and her character assailed. Some of the neighboring gentry took this up, the man was arrested, tried and sentenced to 10 years' imprisonment. Leitrim was furious, and swore vengeance on all concerned.

In March, 1878, a dozen of the tenantry met at a rath in the mountains overlooking Lough Foyle. One of the oldest and most respected of the men on the estate said a few words to the effect that the tyranny of their landlord was more than they could endure, and it was now necessary to resort to the last means in their power to preserve their lives and the honor of their daughters and wives, and all swore to be true to the cause in life or death; £90 was raised.

It was resolved to act at once, and six men were chosen as the instruments of justice. They had brought themselves to believe that in the removal of a tyrant they were doing right. Stephens was their leader and he procured the necessary arms.

One of their most active and trusted agents was a woman servant at Castle Leitrim; her sister had been brutally treated by the earl, and it was her revenge to keep the assassins fully informed of their victim's movements.

On the 2d of April he left Manor Vaughan to go to Milford, enroute to Londonderry. He was attended by a bailiff named Meehan, who sat on the car by his side, with the driver in front. There was a second car containing his valet and another bailiff. All were well armed. The day was beautiful but rather misty.

Stephens and his party stationed themselves behind a clump of low thorn trees, close to the road, armed with double-barrelled guns. From the roof of a cabin 400 yards away on the hillside, a white cloth was displayed. This was the signal that the earl was coming. His indifference to danger was manifested by the manner in which he divided his party. The second car was 100 yards away and entirely hidden by a hollow in the road. A short time before Lord Leitrim had evicted an aged widow named Algoe, and opposite her ruined cabin he fell.

Three of the party had been soldiers and were good shots, and each brought down his man. One of the guns, a rude weapon, burst and blew the holder's thumb off. The driver was killed on the spot. The bailiff ran back to the hind car and dropped dead in the road; but the earl was alive when his enemies surrounded him. While making an effort to draw his pistol he received three loads of swan shot in the body, and when the party behind came up he was dead, and, save the ruins of the gun and an old horse pistol, nothing was left to indicate the identity of his slayers. Nor were they ever traced.

Two of the criminals died in Australia, two in the Boer war in South Africa, while Stephens came to this country and lived a blameless life until he died.

Eight years ago he gave this narrative, intended to exonerate another man, and with the stipulation that it be kept secret unil after his death.

THERE IS NO PAIN LIKE THE TOOTHACHE.

It "beats the dogs" for making a fellow squirm. Nobody pities you. "Get it out," says one; "rub the tooth against a stone," says another; "when it begins to swell, then it won't hurt so much," says a third. The reason of the ache is you didn't use SOZODONT, and prevent your teeth from decay.

EIGHT HUNDRED YEARS.

A Long Lease Filed in New York City.

The Metropolitan Traction Company Get a Never-Ending Cinch on the People.

New York, April 14.—Papers filed in the register's office yesterday, of necessity made public some of the terms of the lease of the Sixth Avenue Railroad company—the surface road, of course—to the Houston, West Street and Pavonia Ferry Railroad company. The lease is for 800 years, which might seem to the casual observer to be an unusually long period, for by that time pneumatic tubes and balloons may have been abandoned as snail-like means of transportation and a man may straddle an electric bolt and be shot here, there, or anywhere else.

The annual rental of the Sixth avenue road is $152,500—that is to say, its stockholders, if they survive, will have received, when the lease runs out, $122,000,000. Quite a tidy sum. The contract, which fills 13 pages of close manuscript, describes every foot of the route of the road. The contract is signed by Secretary E. R. Garrison, of the Sixth avenue road, and Secretary D. B. Hasbrouck of the Pavonia Ferry company, and was sworn to before Notary John Seagar on March 7, 1892, when the fact was published that the lease had been made. The lease was filed, too, yesterday with the secretary of state in Albany.

Besides, a meeting of the stockholders of the Houston, West Street and Pavonia Ferry company and of the Ninth Avenue Railroad company was held yesterday to ratify the lease of the Ninth Avenue road to the parent road. The shareholders of both companies voted unanimously in favor of the adoption of the lease.

Thus is consummated the latest move in the creation of what will hereafter be known as the Metropolitan Traction company, made up of these surface railroad companies. The Broadway and Seventh Avenue, the Brooklyn Cable road, the Chambers street Crosstown, the Twenty-third Street Crosstown, the Ninth Avenue, the Sixth Avenue, the Avenue C and Dry Dock. That is the corporation, of which Peter A. B. Widener, Wm. L. Elkins and Thomas Dolan, of Philadelphia, and ex-Secretary of the Navy Wm. C. Whitney and Daniel S. Lamont are the financial sleepers, and of which John D. Crimmins was lately elected president.

COSTIVENESS

If not relieved by judicious and timely treatment, is liable to result in chronic constipation. As an aperient that may be used with perfect safety and satisfaction, **Ayer's Pills** are unsurpassed. Unlike most cathartics, these pills, while they relax and cleanse, exert a tonic influence on the stomach, liver, and bowels, causing these organs to perform their functions with healthy regularity and comfort. Being purely vegetable and free from mineral drug of any kind, their use is not attended with injurious effects. Good for old and young of every climate, Ayer's Pills are everywhere the favorite. G. W. Bowman, 26 East Main street, Carlisle, Pa., says: "Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. I would not willingly be without them." *

THE JACKDAW OF RHEIMS,

A Humorous Cantata. To Be Given by Local Talent.

Wednesday evening next a humorous cantata, "The Jackdaw of Rheims," will be given at Westminster church by the Eurydice club. It will be one of the musical events of the season. The soloists for the occasion will be Miss Maude Richardson of Chicago, Mr. E. B. Spaulding of Ann Arbor, Mrs. W. W. Ainsworth, Mr. W. A. Howell and Miss Doolittle.

THE CYCLING BOYS.

They Are Arranging for Plenty of Fun This Season.

The uniform of the Cycling club boys the coming summer will consist of black knickerbockers, square cut coat of the same color and drop visor cap. There will be a club run to the asylum Sunday, starting from the club house at 3 p. m. Commencing to-night, Thursday evening club runs about the city will be taken. The ladies are requested to join in. A lantern parade will be given in June.

TOO MUCH WATER.

Offices in the Chamber of Commerce are Wet Down.

A number of offices in the Chamber of Commerce block on the corner of Madison and Summit streets received a good ducking last night.

Carpenters are at work repairing the building, and a hole in the roof was left uncovered. When the storm came up at midnight, the rain poured in at this opening at a terrific rate, and as a result all offices beneath were flooded.

JOINT SESSION.

Called for Friday Evening—Election of City Officers Probable.

A joint session of the new boards of council has been called for to-morrow evening. At this meeting appointments of city officials will be made, and if the democrats hold together as well as they have thus far, the municipal business will be in the hands of good democrats after the first of next month. Some of the present republican officeholders are doing heavy work to be retained, but the democrats do not regard themselves as under any obligations to them.

ELECTION OF OFFICERS

At the Annual Meeting of the North German Society.

Last evening the annual meeting of the North German Benevolent society was held at Druid hall, and the following officers elected: F. R. Tigges, president; John Hening, vice-president; Carl Bunge, recording secretary; Charles H. Osten, financial secretary; John Kohne, treasurer; Joseph Jarchow, Fred Adams and Henry Kinker, trustees; Joseph Doring, sergeant-at-arms; Louis Gess, guard; Henry Fick, standard bearer.

BILLY SAPP RESIGNS

The Secretaryship of the Y. M. C. B. A.—His Successor.

At the regular meeting of the Young Men's Catholic Benevolent association last evening, Mr. Wm. F. Sapp resigned the office of financial secretary, and after a warm contest, Mr. John Connell was elected to fill the vacancy.

The Y. M. C. B. A. is making elaborate arrangements for the international convention to be held here this summer, and committees are hard at work.

It was decided to turn out in a body on the occasion of the laying of the foundation stone of the new Immaculate Conception church.

ROLLING MILL DIRECTORS

Hold a Meeting and Decide on Some Improvements.

The directors of the Maumee Rolling Mill company met yesterday and decided to make some important improvements. It was decided to add another battery of boilers and otherwise enlarge and improve the plant.

It was rumored yesterday that there had been quite a transfer of stock.

A director said to a Bee this morning: "There is nothing in the report. There has been no transfer and nothing but some improvements was discussed at the meeting."

The rolling mills are doing a booming business just now, and the indications are that the company will make considerable money this year.

WIND DON'T MAKE A PAPER.

It's the Printing of News, When It Is News, That Counts.

"You people on the Bee are too modest, entirely," said a prominent Toledoan to a Bee this morning, and the speaker, by the way, was a capable discerner of things. "Why, in last night's Blade on the fifth page alone I noticed eight good items that were printed in the Bee of the day before. One was the Second National bank stock sale; another the meeting of the Northwestern Ohio Natural Gas company's meeting; the extension of the Woolson plant, and others of almost equal importance. I presume that a search through the other seven pages and a comparison would have revealed the same state of affairs. You may not like to say it, but I will: the Bee is the best newspaper printed in Toledo. It has news, it has live news, it has enterprise, and it don't continually blow its own horn." Thanks, awfully.

THE TOLEDO ASYLUM.

A Reorganization Booked for Next Monday.

To-day's Putnam County Sentinel has the following reference to the contemplated changes at the Toledo asylum:

On next Monday the new board of directors of the Toledo asylum, will meet to reorganize the official force of that institution. Dr. C. E. Tupper, who has so faithfully and ably filled the position of superintendent, will, with all the other democrats, be superceded by republicans. The doctor during his administration of the asylum, has so ably filled the position that he has received special commendation from the state board of charities and eminent physicians throughout the state, and will retire with an excellent reputation as a faithful and efficient superintendent. His supercedure will be solely on political grounds, as he is a thorough democrat with courage of convictions.

THE STEAMER PASTIME

May Not Run to Presque Isle This Season—Meeting of Directors.

Last evening the directors of the Maumee River and Steam Navigation company met for the purpose of deciding on the operations of the steamer Pastime this season, several representatives of the Presque Isle company were present, but no definite action was taken relative to the Pastime running to Presque Isle.

The Presque Isle people, it appears, were inclined to be arbitrary on some points, and the meeting adjourned without coming to a conclusion as to where the boat should run this summer.

"We are considering several propositions," a director said this morning. "The matter will be decided this week, and the boat may run to Presque Isle, but we don't know just what we will do for the present."

THE TWO SCRAPPERS.

Were Discharged in Police Court this Morning.

Kelley and Mullen, the prize fighters were discharged in the police court this were discharged in th epolice court this morning on account of certain technicalities and the absence of sufficient evidence.

SWITCHMAN CUT IN TWO.

The Fate Met by a Railroad Man, Who is a Stranger.

At 1:30 this morning a switchman in the Wabash yards named Moran, was run over by a switch engine and his body cut in two.

Moran was riding on the front end of the pony, when his feet slipped from under him and he fell beneath the engine, the wheels passing over his body at the hips, death resulting instantly.

The deceased was a stranger in the city, coming to Toledo a short time ago from the east and secured employment in the Wabash yards. By the orders of the yard master the mutilated body was left where it fell until 8 o'clock this morning, to await the coroner's appearance. Coroner Beckwith is looking into the case today.

TEMPERANCE LECTURES.

Prof. Geo. W. Edmondson Begins a Series of Talks in Toledo.

The proposed lectures in Toledo by Prof. Edmondson, official stereoptician of the Lakeside association, have been arranged for. The first two will be given in the West Toledo M. E. church, to-morrow and Saturday evenings, under the auspices of West Toledo lodge, No. 119, I. O. G. T. The lectures, with a complete change of program each evening, are to be made very realistic by photo-opticon illustrations thrown life-size upon canvas, and the lecturer will endeavor to portray the downward course from fashionable tippling to the drunkard's gutter. Prof. Edmondson can be secured for lectures next week, by churches or Sunday schools. There is no charge attached and the lectures are free.

ANOTHER PIONEER

Gone to Her Long Home—Death of Mrs. Lucinda Haskins.

One by one the pioneers of the Maumee valley are passing away, and now another one has joined the great majority. At 4:30 this morning occurred the death of Mrs. Lucinda Haskins, who has been a resident of the Maumee valley since 1825. Her death occurred at the residence of her daughter, Mrs. Samuel Wagner, on the corner of Walnut and Erie streets, this city. Mrs. Haskins' only other surviving child is County Commissioner J. L. Pray.

Mrs. Haskins was born near Crown Point, Essex county, New York, July 26, 1814. In 1832 she was married to John L. Pray at Waterville, but her husband died in 1839. She afterwards married Mr. Whitcomb Haskins in 1874, and he died in 1887. Mrs. Haskins was a member of St. Paul's Methodist Episcopal church and of the W. C. T. U., and she was very active in both church and temperance work.

Funeral services will be held at Whitehouse, Saturday afternoon, and the remains will be interred at Waterville.

Mrs. William Van Fleet is a sister of Mrs. Haskins.

ORGANIZED LABOR.

Union Meetings Last Evening—No Change in Strike Situation.

The Toledo lodge of the International Association of Machinists held an interesting meeting in Turley hall last night. The question was raised and debated as to whether the lodge is not entitled to two delegates in the May convention of the International. The answer depends upon the interpretation of the clause governing representation, and the secretary has written the grand secretary for a construction on the same.

Carpenters union, No. 25, met last night and transacted routine business, the most interesting feature of which was the initiation of several new members.

The vice-president of the International Iron moulders union, Mr. Thomas Windom, passed through the city yesterday, on his way to Kingston, Ont., to investigate trouble in the trade at that point.

The Furniture Workers met in Phoenix hall last night. Members were notified that the upholsterers of Cleveland were on a strike.

There is nothing new in the strike of the painters. One new member was received in the union this morning, whom one of the larger employers sent to join Both sides expect to win yet.

SPORTING GOSSIP.

Toledo Played the Hustlers a Game Yesterday.

The Toledo team played the Hustlers a game yesterday on the Avondale grounds. The weather was of a very St. Patrick's day order, and the grounds were much like the rocky road to Dublin, so that the people who braved the chilly atmosphere had little occasion to form opinions on the team's work.

Nicholson was captain and the "Parson's" form looked natural at the second bag. The game was only for practice and a score of it would be a waste of valuable space.

All the pitchers for Toledo took turns in the box, but did not let themselves out. Dewald has splendid control and Pears has got great speed. Hurley handles himself nicely behind the bat and Campion is going to be a very popular man on base one.

The grounds were in such wretched condition that it was impossible to do any field work.

Judge pitched a nice game for the Hustlers and Bolan gave him excellent support, while Pecord's play on first was as good as you will see in professional games. Pecord, Bolan and Hines are all coming ball players and the Western League is not a bit too fast for them.

Pittsburg defeated Cincinnati again yesterday 8 to 7 in the tenth inning.

THE GROWTH OF CORPORATIONS

An Able Paper Read Before the Toledo Economic Society.

The Toledo Society of Economic Inquiry met in Steadman business college last evening, Rev. Dr. Bacon in the chair. The annual reports and election of officers was laid over until the May meeting, and the evening was devoted to Mr. A. E. Macomber's paper on "The Growth of Corporations."

Carefully prepared charts added to the value of the paper, and illustrated its philosophy, which was to show that, in the production and industries of the world, the corporation succeeded the individual or partnership, and the trust is the natural outcome of the corporation experiment, this latest form of business now practically controlling production and distribution in almost every direction. Again, the present municipal and state control was shown, ownership as far as the post-office, parks, schools and free libraries are concerned; in some countries and cities ownership, in others control, of water works, gas works, tramways, telephones, steam railways, etc.

The essayist believes the trust form of doing business is an evolution that business experiments have demonstrated is most economical and most efficient, and therefore it is the method of the future. The question to be carefully considered, and which it is vitally important should be wisely determined, is whether the general welfare is menaced by the irresponsibility of the trust, and, if so, how far is municipal and state control of industries successful, and how much farther should this control be extended?

The debate upon the paper was general, and the thanks of the society were extended to Mr. Macomber for preparing it. At the May meeting the members of the society will discuss its field of work for the winter of 1892-3.

WEDDED AT HIGH NOON.

Toledo Young Lady and a Fostoria Gentleman United.

At noon to-day Miss Ida Reiser and George Richards, of Fostoria, were married at the residence of Wm. Fisher, Vienna Flats. The groom is a young man in good standing at Fostoria, and the bride a most estimable and popular young lady of Toledo. Miss Fannie Metzger was bridesmaid, and W. P. Sheppard, groomsman. The following were present from Fostoria: W. P. Sheppard, C. A. Miller, F. E. Hayes, R. B. Richards, W. A. Roif, A. W. Mickey, Harry Hissong, Dr. R. W. Hale, jr., F. R. Kelly and wife, Dr. R. W. Hale and wife, Mahlon Carr and wife, John Bindle and wife, L. B. Terry and wife, and the Misses Anna German, Lesta Richards, Bell Branon, Mabel Olmstead, Hattie Diver and Laura Diver. Among other guests were Miss Carrie Metzger, of Lima; Mrs. Hattie Jones, of Marion; Henry Reiser, of Marion. An eight-course dinner followed the ceremony. The couple will be at home April 18 at Fostoria, where a reception will be given.

MAJOR BOOTHMAN,

The Ex-Congressman, Drops Into Toledo for a Short Time.

Ex-Congressman Boothman, of Bryan, was in the city to-day for a short time. The major served two terms in congress from the adjoining district, and is rather anxious to take another twist at Washington life. In fact, he is a full-fledged candidate for a nomination this fall. Toledo being a central point, he dropped in for a consultation with a number of friends, and departed feeling that he had fixed several rails in his fences. The district, however, is reliably democratic, hence his arrangements will come to naught.

PERSONAL MENTION.

Mrs. G. K. Brown is visiting in Tiffin.

Miss Lulu Homan, of Tiffin, is visiting friends in this city.

F. B. Drake went to St. Louis this morning on business.

Harry Hissong, of Fostoria, is a guest of friends in the city to-day.

Miss Anna L. Case, of Norwalk, is visiting her sister, Mrs. Halpin, of Jarvis street.

Mrs. D. C. Shaw is entertaining Rev. Anna H. Shaw during her present visit to Toledo.

Mrs. John T. Newton went to Warren, O., this morning, where she will visit relatives for a fortnight.

On dit, that the assistant superintendent of the Maumee mills will furnish his handsome new East Side house with a bride in June.

Mrs. H. M. Bacon is expected from New Orleans some day next week. Her health has not been so much improved by the trip as her friends hoped it would be.

Misses Gertrude and Catherine Gates, of Bay City, Mich., spent a day with Miss Nannie Ormond on their return to school at the Lake Erie seminary, Painesville.

Miss Ena Ledyard, of East Woodruff avenue, entertained a number of Prof. Fredericks' dancing academy on Wednesday evening. Music was discoursed by the Philharmonic club, and all enjoyed the dizzy waltz.

Mr. and Mrs. Bert St. John arrived in the city yesterday from New York. They will remain at the old homestead on Summit street for the summer. The professional tour has been a pleasant and profitable one, and Mr. St. John comes home in the best of health and spirits.

The Pleasure Euchre club had a very enjoyable meeting at the residence of Mr. and Mrs. Thomas Leskey, of Baker street, last evening. After a spirited contest, pretty prizes were awarded as first favors to the following: Miss Mary Rychner and Mr. O. F. Hoffmaster, while the boobies were awarded to Mrs. H. J. Shuky and Mr. Ed Pleiss. A splendid luncheon was served by Mrs. Laskey. The next meeting will be held at the residence of Mr. and Mrs. Joe Threm, 417 Huron street, next Wednesday evening.

Chicago seems to be a fruitful field for Toledo talent. Mrs. Laura Raitz Law makes her professional debut in that city this afternoon, in Ibsen's "Pillars of Society." The play is put on at the Columbia theater by the teachers of Samuel Kayser's Dramatic School. Miss Raitz, who in point of time of attendance, is one of the junior pupils, is given the leading role, and a brilliant success is predicted by her professor and those who have heard rehearsals. The piece is staged by Hart Conway, the well known professional, who was with Booth on many of his tours.

The funeral of the late Mrs. Rev. D. F. Helms will occur at Wauseon to-morrow afternoon at 1 o'clock. Ministers desiring to attend can leave on the 10 o'clock train in the morning, and return at 4:45 p. m.

Building permits have been issued to the Woolson Spice company for a $10,000 building on Huron street; to J. H. Clark for two $3,000 frame dwellings, and to Mrs. Sarah Durston for a $2,500 frame dwelling on Monroe street.

The contract for stone masonry of the new Woolson Spice company's addition on Huron street, has been let to Contractor Michael Henshaw. This is one of the most important contracts for stone work that has been let this year.

The students of Theosophy meet with Capt. and Mrs. Bateman this evening. Annie Besant's second volume is the one under consideration. The class is made up of brainy people and much interesting discussion reaching out from the text books is called forth.

GETTING A JURY.

Hard Work to Find Men to Try Van Loon.

Ottowa, O., April 14.—(Special.)—The court succeeded in finding eleven jurors out of the 36 summoned in the Van Loon trial.

Sheriff Treece and Deputy Conrad were out all night after jurors under the second call

Forty more were summoned, of which fifteen are already dismissed.

HIGH PRICE FOR STOCKS

A Block of the Milburn Sells for 115.

One of the Merchants National Bank Goes at 157—Sales Completed To-day.

The wonderful activity in local bank and manufacturing stocks seems to continue unabated.

Thirty days or so ago Mr. M. I. Wilcox purchased a $20,000 block of the Milburn Wagon company's stock at par. To-day a small block of the same stock sold at 115. This is a wonderful advance.

Bank stock seems also to be on the up grade. To-day a deal was closed whereby a block of the Merchants' National was sold at a good advance over previous figures. The price has not been made public, but it is reported to have reached 157—an advance of 7 over the previous sale of a month ago.

LAW OFFICES MOVED.

The trouble about the Sherman-Stanton-Gorham business is that when the senator wrote to Lincoln's secretary he forgot the postscript—"Burn this."

The New York Press describes the agony of the Cobden club over the republican victory in Rhode Island. Dear! dear! Isn't that Cobden club dead yet? After all the times the republican papers have announced its demise and printed its obituary!

A prompt and semi-official denial follows on the story that Brother Harrison warned Brother Wanamaker to have nothing to do with that bold, bad man Quay. The denial is unnecessary. No one credited the story. The indorsement of Pennsylvania is still necessary to the success of the second term candidate, and Senator Quay is still republican boss of Pennsylvania.

Ninety thousand of the inhabitants of these United States will, it is said, cross the ocean during the coming season. Every mother's son and daughter of them will without doubt buy clothing where they can get it both good and cheap. Thousands of them will then come home and vote to continue the present prohibition tariff which prevents the people who cannot afford a European trip from buying the same kind of cheap and good clothing.

During the month of February the money in circulation increased nearly six millions dollars. The total in the country March 1 was $2,236,494,518, an increase of $89,034,574 over the corresponding date last year. There seems to be no trouble about money enough; it is the unequal distribution of it that causes the unhappy conditions that the people are struggling with. Have the laws of trade and commerce anything to do with this?

Mr. Griffin tried to "whip the Devil around the stump" yesterday by attaching his Toledo judicial ripper to a southern Ohio judicial bill, but the House discovered his trick and defeated the bill. Mr. Griffin ought to keep his hands off the judiciary. There should be one place that such a politician as he would have the decency to let alone, and the judgeships is most emphatically that one. The judiciary and Griffin are very, very wide apart in everything.

The appointment of Anthony Froude to the position of regius professor of history at Oxford to succeed Professor Freeman astonishes the world. No more inaccurate and prejudiced a writer has attempted to be a historian in our day, and nothing from his pen would be accepted as a text-book on either side of the water. It is small wonder the cry of "politics" is raised in London, when the man who has maligned Freeman is seated in that able writer's scarcely vacated chair.

The pension investigation drags on, casting additional obloquy upon the department at every step of the proceedings. An evasion of embarrassing questions practiced is to refuse replies because the transaction is "private business." The common law precedent that no man can be required to criminate himself ought to go but a little way in excusing a man who is a public servant of the government, and is properly questioned by a tribunal duly constituted by that government. There is no "private business" transacted in the name of the United States. The man who seeks to cover up a department scandal by such an evasion virtually pleads guilty for himself and places in like attitude the officials to whom he is subordinate.

Rev. E. Walpole Warren is the clergyman who was "imported" by a church in New York city. To make the contract labor law odious the case was taken up and after consideration the court decided that in bringing a clergyman to this country at a salary before determined the spirit of the law was not violated if the letter of it was. Now this gentleman declines to take out naturalization papers, and from his pulpit announces that New York is too wicked for him to become its citizen. It is a thousand pities the court did not enforce the contract labor law and send him back to godly London, whence he came. The duty of the church, clergy and laymen, is to join with all good men, at the ballot box above all other places, in the endeavor to secure clean government. And any man, whatever his calling, who considers himself too good to become an American citizen, should be included in the Chinese exclusion act.

It is generous in Mrs. Garfield to solicit of the president a place in public employ for Cyrus W. Field, jr. President Harrison replied there was no office vacant but, it is said, a place in the English consulate has been found. Mrs. Garfield remembers that Cyrus W. Field, senior, was one of the first to extend assistance to herself and family after her husband's death. All this is a graceful, pretty bit of magnanimity and courtesy, but, the sober sense of the American people would be, if Mr. Field is not a man who would have been chosen for an important position in the foreign diplomatic service, aside from kind and charitable consideration, and Mrs. Garfield's gratitude, the appointment should not be made. Charity, sympathy, kindness, aid—yes, but offices should not be made rewards, or vehicles of charity. The country is full of good men, able men and good patriots who have lost their grip through financial reverses and other causes, but the government cannot institute a grand pension system for unfortunates, however worthy they may be. And it is the boast if not the practice of the republic, that equal opportunities are extended to all its citizens.

Democratic sentiment in Toledo is in accord with the Bee on the subject of the offices to be filled by the council. The majority of the council is democratic. The officers should be democratic. If the tables were turned the republicans would take everything now as they have in the past. It is very pretty to talk about the goody goodiness of non-partisanship, but there are very excellent men in both parties capable of holding the offices, and there are neither political nor business reasons to be urged against appointing democrats to the offices of auditor, clerk, infirmary director, engineer and harbor master. The change will encourage the democrats to work. It is politics to make a change, and without practical politics the principles underlying all political parties would find little expression among the masses. Office holding is one of the props of politics, and a mighty big one, too. Civil service hangers-on would like the offices all the time, but they are too selfish for the every day hustlers of politics. To the victors belong all the fruits of victory, and in Toledo just now the major part of the subordinate offices were placed at democratic disposal by the people at the ballot box. The democratic council should appreciate this fact and act accordingly.

Must be some money in the sugar refining business. The sugar trust has paid Claus Spreckels $8,000,000 for the Philadelphia refinery he built in defiance of it, giving Spreckels, the New York papers say, a clean profit of $5,000,000. To be sure the poor sugar refiners should be protected by tax so that they can make such deals as this. The trust can lift prices, to consumers, two cents a pound, to pay for refineries outside and bring them in. Mr. Spreckels refused to enter the trust, but the trust knowing what levy it could make on the people, paid him five millions dollars for a three millions plant, to have it all their own way. Another striking illustrations of how protection protects—the manipulator.

If there is one lesson more than another in the Rhode Island election it is of the weakness of independent movements in politics. No one conversant with the political situation in that state and with the personnel of the independent voters can fail to see their curiously inconsistent miscarriage. They are opposed to high tariff, to the spoils system, and to pretty much everything the republican party stands for now. They are ardent Cleveland men, and desire to see him above all men in the country its next president. They indorsed the late democratic state platform. Then, because they did not like some of the democratic state nominees, and did prefer some of the republican state nominees, they, holding the balance of power, elected the republican state ticket. In consequence Senator Aldrich, pledged to the tariff they abominate, will be its defender six more years in the United States senate. In consequence, the electoral vote of Rhode Island is probably lost to their idol. In consequence, all the reforms they desire are set back, all the abuses they deprecate are strengthened. Moral—fish or cut bait. Don't be a mugwump.

TRUTH CRUSHED TO EARTH.

We hear large, brave talk in a general way about the "establishment of new industries," the booming of old ones, lower prices to buyers and better wages to employes, all contingent upon the McKinley tariff law. It is reasonable to suppose that every patriotic American desires the advance of his country in all that makes for solid prosperity and enduring strength. When an organ of any brand, says an individual, class or party is disappointed because a tin factory has been established or a field of sugar beets planted, it descends to a very pitiable sort of political pettifogging. Any industry, any advance, established upon a just basis, is pleasing to every loyal citizen. To say that democrats affirm that the tin plate cannot be made in this country, and then batter away at the unpatriotic declaration, shows a very small conception of the magnitude of the question of the right to tax some industries for the benefit of others, instead of giving all an equal chance.

As foolish is the assumption that Mr. McKinley framed his unwise and unjust law purposely to bring ruin on the laborers and farmers of the country and build up a moneyed aristocracy by means of governmental discrimination. Governor McKinley is a man of honest convictions, but he is, also, a narrow man, politically, not versed in an underlying knowledge of the science of economics, and while he sees the conditions named, he is able to persuade himself and others, that unjust commercial laws are not to blame for it.

Unfortunately, it has come to be the rule, that whatever will prejudice a mind, gets said for the temporary benefit of that prejudice, though plain facts stand out against it. Perhaps the most striking illustration of this is the treatment of the tin question. In a recent number of the Engineering Magazine, the value of the tin ore mines in this country and their probable development is scientifically treated. Some mines, the names of which have become familiar through the trumpetings of journals which labor for effect rather than for the diffusion of information, are found to be of very doubtful value; the Temescal, for instance, which was going to flood the country with rich ore. This expert prospector finds that the Temescal "has yielded small quantities of tin ore and a few rich specimens. * * * So far as is yet developed the conditions of the occurrence of the mineral do not differ from those obtaining in Maine, Alabama, Massachusetts and Virginia; these have at various times yielded a show of cassiterite."

Everybody would be glad if the richness of the Black Hills mines and of the San Bernardino mines equaled the reports made of them for political effect. But "the tin plate liar" is become so persistent a character, one seems unable to get honest information before the public.

There is a flourish of trumpets over a hundred tin plate campaign badges, and a tin coffee pot presented to Gov. McKinley; tucked away in a corner of the same paper which exploited these incidents, is noted, in the official report of the custom house receipts, that in one day, different firms in Chicago paid double duty on 4,098 cases of tin. The question is one of justice only. Should the canning industry of the country be taxed for the benefit of stock mining companies? Shall every man who buys tinware for use, pay his tribute to that end? Mr. McKinley explained, in an Ohio campaign speech, that the addition to cost was so trifling it was not felt. But these mites aggregate a big sum and it is this same total that is taken, unjustly from the body of consumers. Moneyed men understand what one per cent. more interest or dividend means; it is the man of small means who doesn't trouble himself to keep debit and credit account, who can bear to be told that "here a little and there a little will never be felt." Poured into the monopolist's coffers, it makes a big showing.

The Tin-Plate Consumers' association has asked the tin plate manufacturers, a statement of quantities they are able to supply, along with a schedule of prices. The manufacturers decline to comply with the request. Yet, according to the law, these facts are to be presented for governmental inspection before a very great while. Will this presentation take on a political hue?

MENTIONED ON THE STREETS.

That Col. Neubert finds the settlement of the Bronson estate an onerous job.

That the Episcopal churches will make selections of vestrymen on Easter Monday.

That a small decoction of winter appears to be still lingering in the lap of spring.

That the new aldermen did up their business in good shape, and without much trouble.

That the old council boards have now passed in their checks, and the new dads are at the helm.

That preliminary preparations are going on so that work on the straight channel may be commenced.

That there are nearly a hundred cases to be called for assignment in common pleas court next Monday.

That Miss Electa Gifford is happy over her reception at St. Paul's last night, as the little lady has reason to be.

That Herman Baumbach's infirmary ripper has been put to sleep, never to rise again. Herman was rather previous.

That an agreement will likely be reached among the tug owners by which the slashing of rates will be avoided the coming season.

That the Fourth ward appears to be in it with President Huberich of the aldermen and Vice-President Schmuhl of the councilmen.

That the $75,000 bond bill for bridge purposes is now a law, and the new council will have an important project to consider at once.

That when President Harrison is looking around for a supreme court justice, what's the matter with our own Judge John H. Doyle?

That Jake Hoffman is preparing for war by selling pocket pistols, the contents of which are not made up entirely of powder and ball.

That the boys are getting in line for the republican county convention on the 23d, when the Sherman-Foraker scrap will be on in all its glory.

That the legislature has finally agreed to quit next Monday, and then Brother Flickinger will again take up his cue at the O. Y. C. billiard hall.

That Elder McDonald has devised a plan by which he wants ministers of different denominations to discuss their particular theology from his pulpit.

That there is some tall log-rolling being done by the candidates for city offices, and a prediction as to the successful gentlemen can scarcely be ventured.

That Major Overman's lot appears to be a hard one, since he has offended the army code, and his connection with the engineering corps may as well be considered at an end.

That a copy of the Toledo Republican club resolutions on the temporary appointment of Johnny Hackett as deputy United States marshal would be appropriate for democratic councilmen at the present time. Marshal Haskell or Secretary Adams might send them a copy. The tenor was to put none but republicans on guard, and of course the converse ought to be true.

ALL TROUBLE OVER.

The State of Siege at Rio Janeiro Has Been Raised.

Rio Janeiro, April 14.—The state of siege of this city has been raised, all further danger of immediate trouble having ceased owing to President Peixotto's energetic measures.

SENECA REPUBLICANS.

Tiffin, O., April 14.—The Seneca county republican convention selected the following delegates and alternates to the republican state convention to be held at Cleveland, April 27: Delegates—Judge U. F. Cramer, Gen. William H. Gibson, O. J. Dewolf, W. F. Boley, Dr. H. K. Spooner, H. W. A. Boyd, Dr. William Harman, Dr. T. J. West. Alternates—Fred A. Adams, John L. Lott, F. M. Smith, Willis Bacon, William Davidson, F. A. Maiberry, Joseph T. Robinson, John K. Rohn. A resolution was adopted memorializing the legislature to sustain the Australian ballot law for all elections in its features of the secret ballot and non-partisan boards.

SERIOUS DAMAGE.

New York, April 14.—At midnight last night, fire was discovered in the storage shed of the Long Island railroad in Long Island City. The building and contents were destroyed. The flames extended to the moulding mill of W. S. Lampans & Co., also to Clark & Sampson's produce market.

Both of these buildings were soon burned. Burrows' lumber yard was also burned. A large area was burned over. It is estimated that the loss will exceed $200,000.

WASHED THEIR FEET.

Vienna, April 14.—In compliance with an ancient custom, the emperor Francis Joseph to-day washed the feet of 12 poor men at the imperial palace.

COLD AND SNOW IN IOWA.

Cedar Rapids, Ia., April 14.—A heavy snow is falling here. High winds prevail and it is unusually cold for this season of the year.

CURRENT COMMENT.

Notices have been posted in all the furnaces of New Castle, Pa., announcing a general reduction of wages to the schedule in force prior to November last, when a raise was granted to influence the Pennsylvania and Ohio elections. McKinley victories come high, but they must be had and sooner or later the workingmen are levied upon to pay for them.—Kansas City Star.

The republican committee of Ohio, by a vote of 11 to 9, refused to make Gov. McKinley chairman of the state convention to be held soon. This is done in a spirit of retaliation by Foraker's followers, who openly avow their hostility not only to Sherman, but to Foster and McKinley also. Foraker proves himself not only a fire-alarm, but a fire brand.—Utica Observer.

It is announced that Levi P. Morton is willing to accept a renomination for vice-president. If this be true, it is safe to predict that he will be nominated if Mr. Harrison again heads the republican ticket. Mr. Morton's bar'l is bigger now than it was four years ago, and it was at that time a very big bar'l.—Wheeling Register.

INCENDIARY.

SOME BIG VESSEL DEALS

Syndicate to Control All the Local Tugs.

The Boats to be Appraised and Stock Issued.

Messrs. Chas. Hubbard, S. C. Schenck, M. I. Wilcox and Others in the Deal—The Purchase Yesterday—The Opening Chapter.

One of the biggest deals in the marine is about closed, and will probably be consummated this week.

The project is that of a syndicate, comprising S. C. Schenck, M. I. Wilcox, Captain Chas. Hubbard, and others, to own and operate jointly all the tug boats in the Toledo harbor.

The purpose is to form a syndicate of the present owners of tugs, to have the same appraised and stock issued pro rata to the members of the syndicate.

The purchase of the tugs Birckhead and Doan by Capt. Hubbard, L. S. Sullivan and others yesterday for $8,500 was the opening chapter in the deal.

Mr. Schenck owns the tugs Schenck, Butler and Uncle Sam. Messrs. Wilcox and Hubbard own the Mary Ann Green and Andrews. Messrs. Hubbard, Sullivan and others have joint interests in the Roy, Syracuse, Birckhead, Doan, Rooney and several others.

Negotiations have been pending for some time, but owing to the illness of Mr. Wilcox and the absence of Mr. Mr. Schenck nothing definite was done.

When Mr. Schenck was approached he at once declared his willingness to go in, but Messrs. Sullivan and Hubbard asked and were given time. They are now prepared to enter the syndicate. Mr. Wilcox was also anxious for a consolidation.

"I have tried for some time to bring the tug owners together," Mr. Wilcox said to a Bee this morning, "but owing to my long continued sickness was unable to do much."

"What is the purpose of the proposed consolidation?"

"The purpose is to own the tugs jointly. The vessels will be appraised and stock issued pro rata. You see the trouble with associations have been that it was necessary to renew the deals every spring. Under the new plan tugs that are not needed can be laid up and so a great saving made in expenses."

"Will Mr. Schenck put his tug into the deal?"

"Oh, yes, Mr. Schenck has been willing to do so right along. I don't know now just what has been done or will be done. It will take some time."

Mr. Schenck is out of the city, and Captain Hubbard and Mr. Sullivan are dumb as oysters.

One thing, however, is certain, the united tugs will be run this year under one management. Sullivan & Hubbard will operate them, and the deal outlined above will go through when Mr. Schenck returns.

For several years the tug business has not paid. Last year was more or less disastrous, and the tug owners have come to their senses at last. Now tugs will pay.

IT IS PRESIDENT HUBERICH

And Vice President Peiter in the Aldermen.

No Friction Over the Election, Both Gentlemen Being Chosen Unanimously — Everybody Thanked by the Old Board.

A short horse is soon curried, and the democratic majority in the board of aldermen did the business. The special session last evening was called to order by President Leroux at 8:15.

A vote of thanks was tendered the retiring presiding officer, who replied briefly, but to the point. The record of the session was then approved and the board adjourned sine die.

Mayor Emmick called the new board to order, and, as their names were called, the new officials—Messrs. Graham, Hall, Hassenzhal, Wolfman and Hodge—appeared in line before the mayor and took the oath of office. The first business of the new board was the election of president.

The democrats put Alderman Huberich in nomination, and as there was no opposition the vote resulted 8 to 1 in his favor, Mr. Huberich voting for Hartford.

Mayor Emmick stepped down from the throne, and Mr. Huberich ascended. He called for nominations for vice president. The name of Henry Peiter was announced and he was elected by a full yea vote, excepting the candidate's ballot, which was cast for Mr. Hall.

The president then appointed Messrs. Hartford and Hassenzhal as a committee on rules and by-laws, and the board adjourned.

TRANS-ATLANTICA.

A New Republic in South America.

Matta Grosso Has Announced Her Independence—The Government Formed.

New York, April 14.—A special to the Herald from Rio Janeiro confirms the report that the state of Matta Grosso has announced its independence, and says that the new republic has assumed the name of Trans-Atlantica.

This new republic will send envoys to Argentina, Paraguay and Bolivia to ask recognition of those governments.

BRYAN NOTES.

Bryan, O., April 14.—(Special)—The only log church at the present time in Williams county is a German one and has stood for many years. This building is to be replaced with a new one, the corner stone of which will be laid next Monday.

The marriage ceremony of Neri Newcomer and Miss Melissa Frederick, will be solemnized at the bride's parents west of Bryan this evening.

Ladies of the Universalist church gave a "Gypsy Girl" entertainment at the opera house to a good sized audience last night.

The Aid society of the M. E. church will give an Easter social in Carroll's hall tomorrow evening.

Applicants for teachers in Williams county schools will have a chance to attend examination here Saturday.

TRANSFER OF STREET RAILROAD PROPERTY.

Columbus, O., April 14.—Some Philadelphia and New York capitalists have purchased all the street railroads in this city except the West Broad street line at $1.18 net. The capital stock is $1,250,000. The road has an electric equipment. Emerson McMillen, of the St. Louis and Columbus gas companies, conducted the deal.

NOT LONG AT LIBERTY.

Mansfield, O., April 14.—Thomas Bloor, one of the three prisoners under indictment for burglary at the home of Phoebe Wise some months ago, made his escape from the jail, but was recaptured a mile east of the city. He was brought back and taken into court with the eight other prisoners under indictment, all of whom pleaded not guilty.

CHICAGO OPENING.

Chicago, April 14.—Opening—Wheat—May, 81 3-4c; July, 82c. Corn—May, 41 1-4c; July, 39c. Oats—May, 29 1-4c; July, —. Pork—May, $10 17 1-2; July, $10 30. Lard—May, $6 22 1-2; July, $6 32 1-2. Ribs—May, $5 62 1-2; July, $5 72 1-2.

DROWNED IN A CISTERN.

Mansfield, O., April 14.—The 3-year-old daughter of J. E. Scott fell into an open cistern and was drowned before her disappearance was noticed.

Dainty Foods Demand It.

IN EVERY Receipt that calls for baking powder, use the "Royal." Better results will be obtained because it is the purest. It will make the food lighter, sweeter, of finer flavor, more digestible and wholesome. It is always reliable and uniform in its work

I have found the Royal Baking Powder superior to all others.

MISS ELECTA GIFFORD

Delights Her Many Toledo Friends.

A Testimonial Concert at St. Paul's in Which She is Assisted by the Famous Organist Clarence Eddy.

Miss Electa Gifford surprised her friends last evening. The occasion was a testimonial concert to the young soprano at St. Paul's church, and every seat was taken. Miss Gifford was assisted by the eminent organist Clarence Eddy, and an excellent program was rendered. Miss Gifford first sang an aria, "Bel Raggio," from Semiramede. Her hearers were delighted and surprised. She has a sympathetic voice of wonderful flexibility, peculiarly adapted to the florid style. Her lower notes are rich and full, and her higher ones are clear and perfect and taken without seeming effort. The songs chosen by Miss Gifford for the evening were all difficult ones. In "I Will Extol Thee" the audience could form an opinion of what the singer might do in the oratorio line. "A Song of Morning" and "One Spring Morning" were of a lighter order, and were given with just enough action to lend a piquancy to the songs. Mr. Eddy appeared in a varied program. Both he and Miss Gifford were repeatedly encored. Mr. Eddy's playing was grand. Perhaps all those in the audience didn't quite appreciate all they were hearing, for he is conceded to be one of the foremost organists in the world to-day. He took the European critics by storm during the Paris exposition. His wife, Mrs. Clarence Eddy, is Miss Gifford's teacher. Mrs. Eddy has a wonderful ability for bringing out voices, as her results with three young ladies of Toledo testify. Miss Gifford is at present the leading soprano of Clarence Eddy's choir, Chicago.

TO AIR IT ONCE MORE.

The Platt-Waller Divorce Case to Be Tried Again.

New York, April 14.—Mrs. Minnie L. Platt, the victorious defendant in the sensational divorce suit brought against her by her husband, Retired Naval Engineer Wm. H. Platt, in December last, in the city court, Brooklyn, when Martin B. Waller, son of ex-Gov. Waller of Connecticut was co-respondent, has been sued again for divorce.

The exact dates of Mrs. Platt's alleged misconduct, of which Mr. Platt was not positive on the first trial, have now, it is said, been obtained. Waller is again made co-respondent.

NEW CORPORATIONS.

Columbus, O., April 14.—The following articles of incorporation were filed in the office of the secretary of state to-day: The McKinley club, of Cincinnati; the Massillon Street Railway company, Massillon, capital stock, $50,000; the Toledo Maennechor company, of Toledo, O.; Linden Lodge, No. 412, Knights of Pythias, Dayton; the Canton-Massillon Electric Railway company, Canton, capital stock, $200,000; Wooster Alumni association, of Cleveland; Gardner Post, No. 719, G. A. R., South New Line; Young Men's Hebrew association, Columbus; the Hocking Coal and Ore Transfer company, Columbus, capital stock, $25,000.

HIS INJURIES PROVED FATAL.

Kent, O., April 14.—Daniel Glenn, the most seriously injured of the men in the terrible accident at Cuyahoga Falls yesterday, died. He was 40 years of age and leaves a wife and five little children. Charles Weidner has both feet mashed and his internal injuries are of a serious nature. He is not expected to live. The third man, Julius Authenrite, will probably recover. Weidner was in charge of the work and told the other men to drop the guy ropes, which they did, causing the accident.

FATALLY SHOT.

Albany, N. Y., April 14.—Benjamin Warman, son of J. H. Warman, of New York, publisher of Outing, shot himself in the abdomen Tuesday while spending the Easter recess with friends in this city.

He has been unconscious since the shooting, and it has been impossible to ascertain how it occurred. His recovery is doubtful. He was a student of Harvard.

ELECTRIC LIGHT FOR ORRVILLE.

Orrville, O., April 14.—Work on the Orrville electric light plant is progressing nicely. Poles are being set and wires and lamps will be up in a few days. The franchise has been granted Gans & Wilson and the village has contracted for 25 2,000-candle power arc lights at $72 per year per light for a period of ten years.

MARBLE COMBINE.

Murphy, N. C., April 14.—The combining of the southern marble interest is becoming an assured fact. All the quarries between Marietta, Ga., and this place, though owned by half a dozen different corporations, are really controlled by the Southern Marble company.

DROWNED AT PRACTICE.

Coquiello City, Ore., April 14.—Tuesday afternoon while the lifesaving crew at Bandon were practicing, the boat capsized and Captain Nelson and three of the crew of eight were drowned. The names of two of the drowned crew were William Green and Edward Summers.

THERE IS NO PAIN LIKE THE TOOTHACHE.

It "beats the dogs" for making a fellow squirm. Nobody pities you. "Get it out," says one; "rub the tooth against a stone," says another; "when it begins to swell, then it won't hurt so much," says a third. The reason of the ache is you didn't use SOZODONT, and prevent your teeth from decay.

Scrofula is, in the main, a disease of early life. Home knowledge is all astray about it. You cannot tell whether your child has it or not; your doctor will know.

We do not prescribe. We are chemists. We make the remedy, Scott's Emulsion of cod-liver oil. Your doctor must tell you when to use it.

In Southern Europe the cantharides insects are gathered by shaking them at night upon sheets from trees on which they have gone to roost in flocks. Then they are exposed in sieves to the vapor of boiling vinegar, after which they are dried in the sun, and are ready for sale in the drug shops. The flesh of all "blister beetles" containes a peculiar compound, called cantharidin, which burns the skin.

It will doubtless be a satisfaction to the able-bodied men of Germany to know how the statisticians have figured out some of the results of the increase in efectiveness of "arms of precision." In the last war, it is stated, the number of soldiers killed in action was about 2 per cent. of those engaged. In the next it will be greater, though not more than 3 per cent.—that is to say only about 1,200 out of an army corps of 35,000. Of the same number about 5,800 will be wounded. It is well to have these things settled beforehand.

LOVE VERSUS MONEY.

Mr. Moppet was coming in from the garden path. Nancy, with plump, white arms bared to the elbow, was washing the breakfast dishes in a deep pan of hot soap suds.

Mr. Moppet was a hard-featured elderly man, with whitish blue eyes, a straggly fringe of white beard beneath his square chin and bald caranium.

Nancy was fresh colored and bright-eyed with silky tendrils of auburn hair drooping over her freckled forehead and a certain dimple perpetually playing at hide and seek on her left cheek.

The two completely realized Shakespeare's ideal of "Crabbed Age and Youth."

"I'm a-goin' to town," said Mr. Moppet. "You won't need to bile no pot victuals for dinner. Waste makes want. A cup o' tea and a biled egg and what's left o' yesterday's pork and greens—that'll be all you'll need."

"Yes, father," acquiesced Nancy.

"And, talkin' 'bout eggs," added Mr. Moppet, "you may take four dozen up to Peach farm. Mrs. Wixon wants plenty on 'em to make cake for her niece's party. Better go early this morning."

"Can't I send 'em up by little Bill Becker, father?" said she. "Webster Wixon will be there, and—and I don't like Webster Wixon, with his red nose and his compliments."

Mr. Moppet frowned.

"Nancy," said he, "don't be a fool. I can see through ye, like ye was a pane o' glass. Webster Nixon is a well-to-do man, with money out at interest, and you'd oughter to be tickled to death that he'd took a notion to you.

"I know jest exactly what's comin'. It's that foolish nonsense about Absalom Parker. No daughter o' mine ain't goin' to marry your Grandfather Atkins' hired man, not if I know it."

"Take them eggs straight up to the Peach farm," reiterated Mr. Moppet.

Webster Wixon, a fat, middle-aged bachelor, was out helping to gather the October apples on the north side of the house when Nancy came up. He made haste to welcome her.

"Good mornin,' Miss Nancy," said he. "As bloomin' as ever, I see."

"Here's your eggs," spoke Nancy, curtly.

"Set down a spell, won't ye?" simpered Mr. Wixon.

"I'm in a hurry," said Nancy.

"But, Nancy—"

"My name is Miss Moppet, sir!"

"Nancy—Miss Moppet—I must speak!" blurted out the old fellow. "I love you better'n all the world. There, that's what I had on my mind. And your good, Christian-minded father, he says it would suit him exactly, and—"

Nancy wheeled around and faced her eager swain.

"Is it me or father you're a-courting?" said she.

"Why, you, of course."

"Then take my answer—no!"

And without waiting for the return of the hen basket she hurried away, her cheeks blazing, her breath coming very quick and fast.

Mr. Moppet drove leisurely to Harn Hill, drove an excellent bargain for a highly ornamental wood stove, and set forth with it in his wagon just after dusk.

"It's a warm day for this time of year," said he, "and it's easier traveling for the horse after dark.

"It ain't a bad day's work, come to think on't. I beat Brother Piper down pretty well on the price, and it's worth $1.50 to cart the things home over these bumpy roads. They 'lowed $20 for it and I got it for $15.

"Takin' my time and trouble and wheel wear and horseflesh into consideration, I guess I won't say nothin' about the odd $5. I'd like one the same fashion in my best room, and"—with a long whistle—"why shouldn't I have it?"

"There's that second-handed stove that Gran'ther Atkins took for a debt from Solon Grubb. I'll fetch it home to-morrow and black it up, and let Elder Meacham suppose I got a bargain from somebody; and I'll have the nice new stove for myself, and nobody'll be the wiser, now that Gran'ther Atkins is confined to the bed with creepin' paralysis and Absalom Parker's up in the wood lot choppin' down trees for winter firewood."

He drew rein opposite the Atkins' house. All was dark and quiet there save the one red light that burned in old Mr. Atkins' bed room.

It was no difficult task for a man of John Moppet's physical strength skillfully to lift the old stove out of its place in the outer shed into his wagon.

"Git up, Prince!" he muttered to his horse, shaking the reins, and away they went.

"Mr. Atkins is took wuss," said Absalom one afternoon, standing at the doorway. "Wants to see you—right off."

Grandfather Atkins lay among his pillows, like a wrinkled old ghost.

"John," said he, "all I've got in the world is yours, but I think I ought to tell you where I've hid it, sence the bank robbers gave me such a scare."

"I've hid it away——"

John Moppet placed his ears close to the pallid lips.

"Six $500 bills, folded up in an old number of the Horn Hill Gazette! In the old stove out in the shed!" gasped the old man. "I knowed nobody wouldn't be likely to look over there! It's yours, John Moppet—every cent of it."

So speaking, the old miser closed his dim eyes and went where there is neither money nor counting of money.

John Moppet uttered an exceedingly bitter cry as he remembered the lighted match he had put to the crumpled old papers in the stove, to make sure of a draught, when it was put up in the church.

He went home and sat all the evening in a sort of stupor, with his head in his hands.

As the old kitchen clock struck 9, Absalom Parker came in, bringing with him a gust of fresh, frosty wind.

"Evenin', 'Squire," said he. "I'm sort o' looking up the watchers. S'pose you'd like to be one of 'em? But I'd like to speak a word to you first."

"If it's about Nancy, it ain't no use," said Mr. Moppet, rousing himself to the affairs of the world with some petulance.

"It ain't about Nancy," Absalom answered with a smile. "It's about Mr. Atkins' money."

"Oh, you needn't jump so," reassured Absalom. "It's all safe."

He took a flat parcel out of his pocket.

"Count 'em," said he. "Six, ain't there?"

Mr. Moppet stared at Absalom Parker as Aladdin might have stared at the genii.

Absolom gave a low chuckle.

"Hush!" said he. "Don't speak loud. I seen the old man hide 'em there. I knowed it wasn't safe, so I took 'em out. And you may thank me that they wasn't all burned up in the first fire you lighted in that identical stove."

"You know about that stove?" said Mr. Moppet, with a gasp.

"It wasn't likely no such conjuring would go on about Mr. Atkins' place and me not know of it," said Parker, dryly. "I guess the church folks 'll get sick of it before a great while."

"When they do I'll make 'em a present of a brand new one. And Absalom——

"Yes, Mr. Moppet?"

"Since you and Nancy really are attached to each other——"

"We're just that, Mr. Moppet."

"I don't see no objections to your gettin' married this fall," said Mr. Moppet, with an effort.—St. Louis Star Sayings.

ABOUT PEOPLE.

The illness of the Duke of Edinburg recalls the fact that it was a similar illness, hopeless from the start, which carried off his brother, the Duke of Albany.

A musical prodigy has been discovered at Albany, Ga., in the person of Tom May, who can reach low F, and whose voice has exactly the same compass that Whitney had in his halcyon days.

Lady O'Brien, the wife of the governor of Newfoundland, is much absorbed in the wives and children of the men engaged along the coast in the fishing industry, and has organized a small society to work up material into suitable clothing for her proteges.

Professor Edwin C. Bissell, of Hartford Theological Seminary, who has accepted the chair of biblical theology in McCormick University, Chicago, is an Amherst graduate, and during the war was a captain in the Fifty-second Massachusetts regiment.

Whitman and Lowell were born in the same year, and the death of the one has been closely followed by the death of the other. The two men were totally unlike and probably were not mutually appreciative. Yet our English critics frequently couple Lowell and Whitman together as the two greatest American poets.

The Duke of Richmond is one of the shortest men in the peerage. He is a great favorite of the queen, but seldom finds time to go to court. Although the race course of Goodwood is on his land, and really belongs to him, he dislikes racing, and regrets, it is said, that he cannot plow up "the prettiest race course in England."

William L. Abbott, chairman of the board of managers of Carnegie Bros. & Co., has severed his connection with the firm and retires from business with a comfortable fortune. His connection with the Carnegies began in 1871, as a shipping clerk for Carnegie, Kloman & Co., and his promotion was rapid. He was then 19, and he is not yet 40.

Violent Exercise.

Fat is a vulgar word. Too much adiposis or obesity sounds better. But fat is plainer. You cannot reduce it by violent exercise. There are two kinds of fats.

The unhealthy adipose tissue, resulting from sedentary habits or from forcing the appetite through stimulants; or from impure blood, or it may be hereditary. This is the kind that lays the possessor liable to heart disease, apoplexy, vertigo, etc.

Then there is the genuine, healthy, lifegiving tissue, the result from regular and moderate habits, or if irregular habits, the taking regularly and according to directions the famous Carlsbad Sprudel Salt. The Salt will reduce unhealthy tissue and build in its place that firm and solid flesh which is the certain sign of perfect health. It is virtually taking the Carlsbad treatment in your home. Every drug store has it. The genuine has the signature of "Eisner & Mendelson Co., Sole Agents, New York," on the bottle.

Cripple Creek is not a health resort. It is a wealth resort. Quite a difference! Location, near Pike's Peak, in Colorado. Gold—bright, yellow gold, is found at grass roots and in the rock formation.

Reliable experts claim this is to-day the richest camp in Colorado. Assays average $100 per ton, and have run as high as $5,000. One hundred people a day are now rushing to Fremont, chief town of the district.

The chance of a life-time is worth looking after!

You can get there quickly and comfortably by taking Santa Fe Route. Only line with no change of cars from Chicago, Kansas City and other principal cities to Florissant, nearest railroad station, with daily stages to Fremont.

IS SPRING A FAILURE ?

Many People Feel That It Is.

If It Is Not So Joyous as It Once Was Is It Not Your Own Fault?

You wrote a composition when you were a child in school beginning, "Spring is the pleasantest season of the year," and so it was then. There was every reason why it should be pleasant to you. You were in good health. "Life beat high" within you. You had sentiment, ambition, happiness. The winter had passed, the flowers were blooming, the birds were singing. Certainly spring was to you then "the pleasantest season of the year."

But how is it now? Do you feel the same joyousness, happiness and anticipation that you did then? Are you filled with hope; or possibly are you weak, languid, despondent, depressed? Perhaps your head aches, you feel tired, and there is a lack of all interest and joy in life where once in the springtime all was anticipation and happiness.

Do you know the reason for this change? It is because you are not well, because your vitality is not so great as when in your teens. Do you know what you need? Something to help you; something which will prove "a friend in need;" something that will restore you and place you where you were in youth, which will make life pleasant and happy, and which will again make "spring the pleasantest season of the year." Do you know what will do this? We will not attempt to tell you, but will show you what others have done, and which you may do if you will follow the same wise course pursued by them. Read their words:

Dr. A. C. Clark, a well-known New York physician, says: "I have never known a case of spring debility, spring fever, or any of the troubles which arise during this season, which has not been promptly and permanently cured by the use of Warner's Safe Cure. Its power at this time of year is wonderful. I have seen women, run down by care and overwork; men whose vitality was exhausted, and even puny children restored to perfect health through its use."

Mrs. M. M. Simonson, of Buckley, Mo., says: "My daughter, who was once the perfection of health and happiness, was for years afflicted with kidney and liver disease, complicated with scrofula, the hip joint being affected. She became so bad that the doctors wanted to unjoint the hip. I would not consent to it, and began administering a remedy which I had heard much about, and I am happy to say she is now cured, well and healthy, by the use of Warner's Safe Cure."

Mr. B. E. Mayo, of Rouse's Point, N. Y., says: "Two years ago I had terrible boils on my face, and my blood was fearfully out of order. I began the use of Warner's Safe Cure; the boils left as if by magic, and I have never since been troubled with them."

If you are depressed, weak, run down by the influences of the season, follow the advice above given. You will certainly find it profitable and valuable. The renewing power of this great cure is beyond estimation. It stands, as it deserves to stand, at the head of all modern discoveries for the cure of sickness and the renewal of life.

"DO YOU WANT A GOOD THING?" Asked President Lincoln of an importunate office-seeker. "Yes," was the reply. "Get Don Quixote then, and read it. It will make you laugh." Still more laughable to those who appreciate American above Spanish humor is the "New Don Quixote," in which the sorrowful knight of La Mancha and his faithful squire, Sancho, are brought in contact with the civilization of the nineteenth century. Send 50 cents for it to Brentano's, Chicago, or New York.

TURKISH PRESS ORDERS.

The Sultan Gets the News of Importance Ahead of All Others.

Look how careful the sultan is to supply the city of Constantinople, his imperial residence, with reliable and instructive news. His government has just issued the following instructions to editors and printers of newspapers:

1. Give preference to all news regarding the health of the emperor and his family, the condition of agriculture and the progress of industry and commerce.

2. No novels must be published that have not been approved by the minister of education and guardian of public morals.

3. Long literary and scientific articles must be avoided. The words "to be continued" must not be used, as they excite too great expectations.

4. Leads and pointed lines must not be used, as they produce offensive suppositions and irritations and may be mistaken as equivocations concerning his imperial majesty.

5. Carefully avoid the names of prominent people. Should a governor or an inferior officeholder be accused of theft, embezzlement, manslaughter or other crimes the event must either be suppressed or represented as not proved.

6. It is absolutely prohibited to publish petitions regarding abuses of the administration.

7. It is not allowed to report attempts of murder against princes or riots in foreign countries, the knowledge of such events being not profitable to our loyal and peaceable people.

8. These new instructions shall not be published in your paper as it might cause dissatisfied men to pass evil criticisms and remarks concerning them.

Nobody will suffer with liver or kidney disease if they take Simmons Liver Regulator.

Capt. Bottego, of the nineteenth artillery regiment of the Italian army made a wager recently that he could ride 150 miles in 24 hours without leaving the saddle except to change horses. He mounted at 11:45 on Saturday evening and at 11:50 on the following evening had covered 170 miles. On Monday morning he was on drill as usual. He changed horses five times during his ride and lost thereby 30 minutes. During 25 hours he rode at a trot.

Sister Rose Gertrude, who made many friends while she was in New York on her way to the Hawaiian Islands to live and labor in the leper settlement, and married Dr. Lutz in that far-off country, writes that she is happy in her island home. She says that a reading room, provided with games, books and so on, has been built for the unfortunates, and she adds that the best thing that can be done for them is to amuse them and cultivate their minds.

Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

In 268 B. C., Archimedes devised a marvelous ship for Hiero of Syracuse. Her three lofty masts had been brought from Britain. Luxuriously fitted sleeping apartments abounded and one of her banquet halls was paved with agate and costly Sicilian stone. Other floors were inlaid with scenes from the "Iliad." Stables for many horses, ponds stocked with live fish, gardens watered by artificial rivulets and hot baths were provided for use or amusement.

The gold reserves in the Bank of England, the Bank of France and the Reichsbank, of Frankfort, have been notably increased. The Actionar, the leading financial journal of Frankfort, says that this is due to large remittances from Gould, Mackay and Vanderbilt, who are thus providing against the rainy day that the free silver men are working to bring on. AT THE TOLEDO THEATERS

Hoyt's New Piece Will be Here Next Week.

Maggie Mitchell Is Also Coming—The Police Patrol—Chas. McCarthy at the People's This Week.

Next Monday and Tuesday evenings at the Wheeler opera house Hoyt's Madison Square theater company will appear in his latest play A Temperance Town, which has scored a great success in Buffalo and Baltimore. The mystery of Charles H. Hoyt's mind no man has yet been able to fathom. Never yet has he failed to make the people laugh when he has so desired. And no one doubts that he will make them laugh again. But how is he going to do it this time? Will he introduce the audience to a border town in Maine where the sale of anything stronger than ginger ale is strictly prohibited and will he show them how the law is laughed at, and make them laugh in the showing? Will he take them on a ride by rail through a prohibition state and make them all thirsty by exhibiting to what tricks and wiles the passengers can resort for doing the legal puminaries who have decreed that no liquor shall be sold or drank? Will we have a thirsty tramp or two and a hypocritical old Pecksniff who carries a pocket-pistol for his own convenience? Will he introduce a bright soubrette with a winning smile, who knows how to smuggle whisky over the border in a pair of high heeled shoes and a big sun-bonnet? Perhaps he will.

Maggie Mitchell Coming.

The American favorite, Maggie Mitchell, whose appearance is always one of the interesting events of the theatrical season, is doubly welcome this year because she brings with her a new play in which she has been highly successful. Miss Mitchell will be seen at the Wheeler next Wednesday evening in The Little Maverick, a new and original American comedy-drama, which has been writtei especially for her by Charles T. Dazey. The piece is bright and cheerful, touched here and there with pathos, and in it Miss Mitchell has a character that admirably suits her natural brightness and versatility. She is first seen as an uneducated foundling, taken from an almshouse by an honest Texan ranchman. She grows up on the Texas ranch, and is sent to New York, a rough diamond to be educated and polished. There she meets Lord Kenwood, who is traveling under an assumed name in search of a missing heiress, who, of course, turns out to be none other than the child from Texas, May Percy. In company with her guardian and Lord Kenwood May starts for England to establish the claim to her estates. By her breezy unconventionality she manages to create a decided sensation in trans-Atlantic society. There is a love affair between May and the English lord, which meets with numerous obstacles, and at length the girls comes back to Texas. Lord Kenwood, who has been fighting in the Soudan, promptly follows, and all turns out happy. In The Little Maverick, it will be observed, there is ample scope for the display of Miss Mitchell's peculiar talents. A charming dance in full evening costumes, by the clever little comedienne is one of the most pleasing incidents of the performance. Among the well known players in the company are, Harry A. Smith, R. F. McClannin, Geo. W. Deyo, Sheridan Tupper, H. D. Blakemore, W. F. Macnichol, Miss Jennie Carroll, Miss Sara Lascelles, and Miss Adele Clarke.

The Police Patrol.

In one act of the Police Patrol, which will be given its first Toledo hearing at the People's next Monday, the interior of a police patrol barn is shown with the horses, "The White Patrol," quietly standing in their stalls, the wagon in place and everything in readiness for the coming alarm. When the bell sounds, the horses dash from their stall to the pole, the swinging harness is dropped, the horses hitched and off the stage in less than five seconds.

At the People's.

Charles McCarthy is drawing large crowds to the People's to witness his realistic production of One of the Bravest. The piece is well staged and the scenes about the docks of New York, in Chinatown and the tenement districts are truly portrayed. A number of the members of the company appear in clever specialties and the performance is worth seeing.

GERMANY AND HER SOCALISTS.

The arrest of some Berlin socialists has caused a flutter of excitement in Germany, and it is feared that government may consider it necessary to try to revive the antisocialist law. Since the retirement of Prince Bismarck, the social democrats have enjoyed the same rights as the members of all other political parties, and in some respects the experiment has been eminently successful. It has brought out the fact that the socialists are not, as they had professed to be, a united party; and the free discussion of their doctrines has enabled the working classes to judge for themselves whether socialism presents a sound and practicable ideal. It is essential, however, to remember that in Germany, as in other countries, there are certain socialists whose aim is not merely to influence the judgment of the community. These fanatics have persuaded themselves that nothing can be done for the good of society by peaceful methods, and that their first task must be to overthrow all existing institutions. Socialists of this type can be left alone only so long as they are known to be powerless. When they propose to put their theories into practice, the state has no alternative but to do its best to crush them. If they cannot be kept in order without exceptional legislation, there can be little doubt that the anti-socialists law will once more be passed by the reichstag; but it is too early to assume that the application of so drastic a remedy has become inevitable. The significance of the facts which have awakened the suspicion of the authorities at Berlin has not yet been thoroughly investigated, and it may be found that the ordinary law gives the government power it really needs.—London Graphic.

Contra Costa county, California, has originated a system of numbering country houses which deserves attention. All the country roads are divided into blocks, 10 to a mile, by imaginary circles radiating from the county seat, and each block is given two numbers, the odd number for the left of the road and the even for the right. In the west, where the counties are nearly all square blocks, the choice of a central point is much easier than in the east. The postmaster general has the plan under consideration in connection with the free delivery system for general adoption.

Not long ago a Chicago wife induced her husband to promise to give her all the silver coins he received bearing an odd date. Then she wrote a number of men with whom her husband does business and asked them to pay over to her husband as many such coins as they could. They did so, and he was soon surprised beyond measure to find that a remarkably large number of his bills thereafter were paid in small coin, which his wife promptly confiscated under his own proposition. He would have been bankrupted very speedily had he not "smelt a rat," and promptly struck his colors by effecting a compromise.

ONE WOMAN'S HISTORY

A Remarkable Experience as Told by Mrs. Atwell.

Her Earnest Words About the Condition of Workers.

How Easily Women Can Improve in Health and Happiness.

The mills and shops of Ohio have hundreds of hard-worked girls, whom poor ventilation, unpleasant surroundings, and hard labor, are worrying into early breaking down.

In far too many stores the hours are so long and the duties so heavy that rosy-cheeked, bright-eyed girls in a few years grow sallow, their eyes lose their brightness, and they become nervous and unhappy.

Mrs. Amos Atwell.

The farm house and city dwellings contain still more whom hard housework is driving to premature old age.

Mrs. Amos Atwell, of Columbus, N. Y., has a timely communication upon this subject. She states:

"For years I have worked so hard that when I got up in the morning I felt all tired out. A roaring in my head kept me awake at night, and I was all discouraged.

"As if this was not bad enough I had rheumatism so severe that I could stand on my feet only a little while at a time, and my shoulders were so lame and sore that it seemed as though I would have to give up.

"My experience shows that the 'woman's work which is never done' completely wrecks her physical system unless some pure strength-giver is at hand. With me, I found Paine's celery compound a perfect means of relief. That tired feeling which filled my whole body, is gone; I never feel that way now; there is no more roaring in the head; and I can sleep like a child; the rheumatism in my shoulder and limbs seems completely cured; all this Paine's celery compound did for me, and I feel that it is my duty to recommend it to hard-working women everywhere."

It is a fact well known to boards of health, and one that is frequently referred to by writers on nervous diseases, and such ailments as are most common among women, that in many localities the family physicians prescribe this compound with the best of results.

It is a happy circumstance that this remedy is within the reach of any workingman's family, for it is not necessary to have a physician prescribe it, as all reputable druggists keep it for sale. With many, it has become the standard family remedy, half a dozen bottles being purchased at a time, so that it may always be on hand when needed.

NOTICE.

Notice is hereby given that the undersigned has this day been appointed and qualified as administratrix of the estate of Joseph Engel, late of Lucas county, Ohio, deceased.

MARY ENGEL.

Dated at Toledo, this 3rd day of March, 1892.

City Auditor's Office.

Toledo, O., March 30th, 1892.

The committee on ways and means of the Common Council of the city of Toledo, Ohio, and the undersigned invite sealed proposals at this office to

MONDAY, MAY 2ND, 1892,

at 7 oclock p. m., for the purchase of Sewer Improvement Bonds to the amount of Seven Thousand One Hundred ($7,100) Dollars, bearing date Feb. 1st, 1892, and payable as follows: Seven Hundred and Ten Dollars on Feb. 1st, 1893, and Seven Hundred and Ten Dollars at the expiration of every six months thereafter, to and including August 1, 1897, at the office of the city treasurer with interest at the rate of five (5) per cent. per annum, payable semi-annually at the same place as evidenced by coupons to be attached to said bonds.

Said improvement bonds are issued pursuant to Section 2380 of the revised statutes of the state of Ohio, as amended April 16, 1880, and also under an ordinance of the common council of the city of Toledo, Ohio, "To provide for the issue of improvement bonds to pay the cost and expense of the construction of Sewer No. 355, in Canal Avenue, from the sewer in Hawley street to the alley between Boyd and South street, from Canal Avenue to Stebbins street, and in Stebbins street from the last named alley to the alley lying next north of South street, and along said alley north of South street, from Stebbins street to the east line of Thayer's Addition."—Passed March 14th, 1892.

The said bonds will be sold at not less than par and accrued interest, to the highest bidder.

Bidders will be required to state the gross amount they will pay for the bonds besides the accrued interest to date of delivery at Toledo, Ohio. They will also be required to deposit with each bid an amount of money or a certified check on some responsible bank equal to at least five (5) per centum of the par value of the bonds, so bid for, as a guarantee of good faith, and that the bid so made (if successful) will be fulfilled in accordance with the terms thereof, and the requirements of the law and ordinances. When the bids have been examined, and the award made according to law, all monies or checks deposited as guarantees shall be returned to the depositor, or held by the city auditor subject to his call, except that of the successful bidder, which shall be held and considered, and accepted as part payment of the bonds so awarded or sold, but should there be any repudiation of the contract or agreement, or refusal to accept and pay for the bonds so sold, then and in that case the deposit shall be forfeited to the city of Toledo, and shall become the property of said city, in compensation for loss and expenses attending the sale of said bonds and as liquidated damages for repudiation of bid. And no bid will be received if not accompanied by money or check aforesaid.

The right is reserved to reject any or all bids.

Proposals should be addressed to the "Auditor of the city of Toledo, Ohio," and be indorsed "Proposals for improvement bonds."

City Auditor's Office

Toledo, O., March 30th 1892.

The committee on ways and means of the common council of the city of Toledo, Ohio, and the undersigned invite sealed proposals at this office to

MONDAY, MAY 2ND, 1892,

at 7 o'clock p. m., for the purchase of Sewer Improvement Bonds to the amount of Thirteen Thousand Five Hundred ($13,500) Dollars, bearing date March 21, 1892, and payable as follows: Thirteen Hundred and Fifty Dollars on March 21, 1893, and Thirteen Hundred and Fifty Dollars at the expiration of every six months thereafter, to and including Sept. 21, 1897, at the office of the city treasurer, with interest at the rate of five (5) per cent. per annum, payable semi-annually at the same place as evidenced by coupons to be attached to said bonds.

Said improvement bonds are issued pursuant to Section 2380 of the revised statutes of the state of Ohio, as amended April 16, 1880, and also under an ordinance of the common council of the city of Toledo, Ohio, "To provide for the issue of improvement bonds to pay the cost and expense of the construction of Sewer No. 351, situate in the right of way running from Dorr street to Detroit avenue, from the sewer in Junction avenue to Monroe street."—Passed March 14th, 1892.

The denomination of these bonds will be each payment two bonds of $675.

The said bonds will be sold at not less than par and accrued interest, to the highest bidder.

Bidders will be required to state the gross amount they will pay for the bonds besides the accrued interest to date of delivery at Toledo, Ohio. They will also be required to deposit with each bid an amount of money or a certified check on some responsible bank equal to at least five (5) per centum of the par value of the bonds, so bid for, as a guarantee of good faith, and that the bid so made (if successful) will be fulfilled in accordance with the terms thereof, and the requirements of the law and ordinances. STILL ON THE DECLINE

The Wheat Markets Opened at a Loss.

Prices and Values on the Exchanges.

What People Buy and Sell the Country Over and What They Get for It.

The cable announces to-day that reports of Hungarian and Prussian crops are unfavorable. But its importance may be covered by the cost of the message.

Chicago telegraphs here that 200,000 bu. regular spring wheat were sold there to-day for export.

Col. Dodge's public letter is in some respects quite interesting. It will be found herein. His conclusion is that "for the larger part of the available supply of wheat is now visible in commercial elevators."

The wheat markets on this side of the water, east and west opened 1-2c to 3-4c lower, and with exception of one hard spot produced by the crop report from abroad referred to above, it has been a week and dull day. It is raining or snowing all over the country. In the northwest they have had another inch or two of rain to postpone seeding. There seems but little news to-day to influence prices. English markets were rather better, especially London, but tomorrow being a holiday, dealers are shy of new engagements and disposed to shake off old ones.

n Toledo the trading in wheat futures has been very light for causes named above. There was very little disposition to trade on either side and the market has been dull, weak and declining. On the call May wheat sold at 92 1-8 and July at 86. After the call May sold at 92 1-4 and closed at 91 1-4, a loss of 1c. July sold at 85 and closed at 84 3-4, a loss of 1 1-4. August sold at 84 3-4 and closed at 83 3-4, a loss of 1c.

Cash wheat was in light request only at 91 1-2 to 91 3-4, closing at 91 1-2, a loss of 1c. Rejected No. 1 at 82. No. 1 white at 90.

Corn—No. 2 at 40 1-2c, No. 3 at 39 1-2c, No. 4 at 37 1-2c.

Oats—No. 2 at 31 1-2c.

Clover seed was in demand with light offerings. Prices 5c better, prime closing at $7 35.

Notwithstanding the unfavorable weather for moving and grading corn, that cereal sympathized with wheat and closed 1-4c to 3-8c lower.

Foreign markets are reported as closing higher.

In New York wheat closed 1 1-2 and July 1 3-8 lower. May corn 1-8 and July 1-4 lower. May oats 3-4 lower.

In Chicago May wheat closed 1 1-2 and July 1 3-8 lower. May and July corn 3-8 lower. May oats 1-2 lower.

Interstate Commerce.

after a labor of two years over the facts and arguments presented to the above named commission by this exchange, against the discrimination against Boston and New England of 5 cents per 100 pounds, it has decided that 10 per cent discrimination—about one-half—is lawful, and that more than that is unlawful. The depth of the logic that dictated that decision, no man can fathom.

The receipts of wheat to-day at Minneapolis and Duluth are 430,654 bus. and at five other western points 88,194 bus. On the same day in 1891 the receipts at these five points were 93,546 bus. The export clearances yesterday at four Atlantic ports were wheat 202,933 bus. and flour to an aggregate of 350,000 bus. Exports of corn 210,395 bus. and of oats 116,103 bus.

London wheat market as reported herein opened 6 pence higher on wheat and steady on corn. Liverpool wheat and corn unchanged.

Chicago Spring Wheat.

The Ohio correspondent of the "Northwestern Miller" says the "sad fact is, that the Chicago No. 2 spring wheat has been a weight on the market, and no one wants it. The wheat which is scarce, and everybody wants, is No. 2 red winter."

We comment on the above by saying that in Ohio the roads have been good for ten days, and at Akron and other milling points the millers say the farmers are selling no wheat, and they are buying it in the wheat centers, where it is cheapest. The spring work is at hand and the wheat "that everybody wants" is not likely to move out of farmers' hands until the last of May or in June.

Terre Haute correspondents say that farmers are all holding for 90c bu, and that the wheat crop looks well from there to the Ohio river.

I'LL LICK THE FIRST MAN

Who Touches a Board, Said E. E. Gerkins.

And Lo and Behold Not a Board Was Touched—How the Genial Michigan Central Agent Collected Car Service.

There are some people in Toledo who cannot be made to see the necessity for car service charges when a car is not unloaded within a given time. There is a scarcity of cars as it is, and if there were no restrictions as to the time a car should lie loaded, side-tracked and useless, local shippers would soon set up a howl.

Well in this connection, it was a few days ago that one of these men who won't see the use and justice of car service charges, had a large quantity of lumber on the Michigan Central cars out at the wagon works. He had neglected to unload it within the prescribed time, and there was something due as a fine.

He objected to paying it, and the railroad company refused to let him have his lumber. The man was mad; he swore that he wouldn't pay, and that he would take the lumber by force—it belonged to him; he could do as he pleased with it.

He went out to the wagon works with five or six laboring men prepared for business. The cars were in an unfrequented spot, and when they got there they found E. E. Gerkins, local agent of the Michigan Central, seated on the lumber.

"I've come to take my lumber," said the irate consignee.

"You'll take nothing," replied Mr. Gerkins, "until you pay your car service."

The men started for the lumber. Mr. Gerkins jumped in front of them and exclaimed:

"I'll lick the first man that touches a board."

He looked as if he would have done it, too, and not a board was touched. The Michigan Central won the case, and Mr. Gerkins proved that there is more than one way of dealing with habitual kickers.

GREAT JOY IN EGYPT

Abbas, the New Khedive, Placed in Full Power.

Interesting Ceremonies and a Day Given Over to General Celebration.

Cairo, April 14.—The new khedive Abbas, was to-day formally invested with the sovereignty of Egypt by the public reading of the sultan's firman. It was made known officially yesterday that all difficulties had been removed, and that the sultan had modified the firman in such a way as to be satisfactory to the khedive, to England and to Italy, leaving the khedive in full and undisputed control of all the territories over which his ancestors had reigned. This news caused general satisfaction in Cairo, outside of the French colony, where some disappointment was shown and general preparations began early last evening to make to-day memorable with general rejoicing and grand public ceremony.

The center of animation and display was in Ismailya and toward that district of palaces the multitudes directed their steps.

The khedivial residences were splendid with decoration, and the horseshoe space in front of the palace Abidin was occupied by the British and the choicest of the Egyptian troops. While the palaces of the Egyptian grandees were mostly hidden by their walls, the banners floating from the visible roofs told that all Egypt shared in the general joy.

The troops in the square were arranged so as to give the most picturesque effect, the stalwart blacks from the Soudan presenting a striking contrast to the Egyptian fellah soldiers, and more especially to the British force of occupation. All were commanded by English officers.

There is a movement in St. Louis to teach the art of conversation in the public schools.

Mrs. Maggie Leslie, of Findlay, arrested on acharge of sending obscene literature through the mail had a hearing before United States Commissioner Beckham yesterday afternoon. She pleaded guilty and was bound over in $200 to the June term of the United States Court. Her word of honor to appear for trial was all the bond she could give and was accepted.

Divorce proceedings have been commenced in the Crawford county Common Pleas Court by Mrs. Nussbaum against her husband, Joseph Nussbaum, on the ground of insanity. Joe denies all of the allegations, claiming conspiracy.

Professor Royce, of Harvard, has a son whose ear for music is said to be so good that if a single note be played upon the piano he can tell where it is, without seeing the instrument. The story is told of the boy that on one summer night he called his father to his bedside and said: "Papa, there is a mosquito humming about my head in a tone betweena F and B flat. I could stand it if he would hum in either B or B flat, but when his pitch is between the two it drives me wild."

of France, now proves to be worth $1,400,000. The Paris residence in the Avenue d' Jene, now inhabited by Mme. Grevy and the Wilson family, with the grounds attached, is valued at $400,000. The bulk of the ex-president's money was invested in English consols and Russian, Belgian, and American securities. For many years he was earning from $50,000 to $60,000 a year, but he lived in a modest apartment while yet a mere lawyer, and kept no carriage.

The blackbird and thrush are "wandering souls" whose sins must be expiated on earth, hence they are forced to endure the rigors of winter. Rooks, jackdaws, bats, hawks and owls are animated by lost souls. The wagtail is called the "devil's bird," for no other reason than that it cleverly evades the missiles thrown at it. A dead wagtail is rara avis.

The latest fashionable fad is the embossed leather covers on which the figures are the same as on prayer books. The covers are put around paper-covered novels, and may be transferred from one novel to another. It enables the possessor to be reading the latest French books without the slightest suspicion but that the contents of the cover are a prayer book.

In the language of colors, green is emblematic of hope, for the vernal regeneration of nature is typical of life after death; blue denotes faith, for it is the hue of heaven; white is the color of innocence, and red is chosen to represent love, because the heart's blood is of that color.

Call and see us at our new store, next to Neuhausel Bros. We have plenty of watches, diamonds and presents.

The porcelain tower in China was constructed as a gift to an empress, and was always kept in repair by the government. Lightning struck it in 1801 and tore away the three top stories. The injury was repaired as soon as possble. It would probably be standing to this day had not the Taeping rebels imagined its lights and bells most disastrous to their cause.

BUY MOCKETT'S PERFECT FITTING CLOTHING

SPECIAL OFFERING. This week we shall offer several new styles of Men's Sack Suits, either in plain black, with or without binding, or in the fancy shades and colorings of Tweeds and Cheviots, tailor made, SOME FOR $10, SOME FOR $15 A SUIT. We shall also offer several choice styles of Men's Cutaway Frock Suits (see cut) made from the choicest Thibets, Worsteds, Clay Worsteds and Whipcords, made in the very latest style and best manner, FROM $15 TO $25 A SUIT.

Gentlemen, our finest grades of ready-to-wear clothing, are better made and better fitting than the average Toledo tailor can get up for you, and we sell ours for about ONE-HALF TAILORS' PRICES.

WE SIMPLY ASK YOU to remove from your eyes the bandage of prejudice, pluck from the brain the rooted errors of antiquity. THEN come and look at our goods with the light of reason and common sense, and you will thank us for leading you out of the land of bondage and high prices, into the field of freedom, liberty and enfranchisement from the tyranny and oppression of an old established but unjust custom.

BE SURE YOU'RE IN MOCKETT'S, THEN BUY.

FIT OUT YOUR BOYS FOR EASTER!

GREAT LINE OF CONFIRMATION SUITS

—FOR—

$5, $7, $9, $10, $12, $14 and $15.

Last season we sold more than 1,500 Confirmation Suits, simply because we had an elegant stock and sold at lower prices than any other clothier. Some clothiers seem to think that most anything'll do for Confirmation, and their meagre, limited stocks prove it. Now **BOYS' CONFIRMATION SUITS** we have made up several splendid lines and have put prices on especially for them that are in the truest sense, CHEAP. The immense quantities we handle, buying in conjunction with Detroit, Cincinnati, Louisville, and the other Mabley Houses, enable us to buy on more advantageous terms than the average dealer, and always buying for cash, we get the benefit of lowest prices.

In making a sleigh-bell the jinglet of iron is placed inside a little ball of mud, just the shape of the inside of the bell. Then a mold is made of the outside of the bell. This mud-ball is placed in the mold and the metal poured in. The hot metal dries the dirt so it can be shaken out after casting, leaving the jinglet within.

DRUNKENNESS

Or the Liquor Habit Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea, or in food, without the knowledge of the patient. It is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never Fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist.
